VOL. 52

VICTORIA, B. C., FRIDAY, JULY 21, 1911

NO. 17

## YUKON'S OUTPUT WILL BE LARGE

### RETIRING COMMISSIONER TELLS OF CONDITIONS

#### Cheaper Transportation Rates Would Do Much to Open Up Country

Vancouver, July 21.—That the gold mines of the Yukon territory will produce more gold this season than taken out in any one of the past four years, and the \$1,000,000 output of 1907 will be surpassed by the big harvest of yellow metal of this year is the news brought down from the northland by Retiring Commissioner Alexander Henderson, K. C., who, with his wife and daughter, returned to Vancouver yesterday on the steamer Princess Mary, after a long stay in the Yukon.

The trip down was ideal. There was, he said, absolutely no unpleasant feature to mar the ship's course south.

"A large proportion of this year's increase over the years previous," said the commissioner, "is due to the fact that most of the mining companies have perfected their systems to such an extent that the sources of waste have been practically cut off and this loss turned into profit. There are very few new discoveries being made, none in fact of any great value."

"One of the chief reasons that more discoveries have not been made is because of the great size of the territory and the lack of inducements to prospectors to try to locate new fields. In my opinion the two greatest needs of the Yukon territory are cheaper transportation rates and some policy of system that will form an incentive to prospectors to trail the great wastes in search of more fields."

"There will be much more territory opened up and many more mines located and operated in the course of the next few years. Larger companies are certain to come in and open up the districts that so far have failed to attract the attention of smaller capital. There are large tracts in the Yukon which will pay big dividends to mine, but which, to an individual or a company of very limited wealth, would spell failure."

"In my view the coast cities, such as Victoria and Vancouver, would do well to have their boards of trade and commercial bodies take up the matter of securing cheaper transportation rates for the Yukon. Everything that is done to develop and to facilitate the growth of the north means just so much more to the cities of the south, through which the business of the northland must necessarily pass. It would be one of the best campaigns ever undertaken by the local commercial body if some action along this line would be taken."

According to Commissioner Henderson the smallest scare was very much exaggerated. There were but eighteen cases of the disease in the territory, and those were not of the virulent form. When he left the territory on July 9, there were only eleven mild cases remaining.

(Concluded on page 15.)

## WELCOME RAIN IN THE PORCUPINE.

### WILL ASSIST IN EXTINGUISHING FIRES

#### Message of Sympathy Received From Earl Grey— Fund for New Hospital

Porcupine, July 21.—The Porcupine, what is left of it, is saved. A steady rain fell all day yesterday. The people of Golden City are taking advantage of the opportunity to burn piles of stumps in the yards behind their inflammable houses and hotels.

The bodies of Macdonald and Meehan have been brought in from Reddick, Night Hawk Lake district.

Earl Grey's Message.

Toronto, July 21.—Chairman Ingelhart of the Temiskaming Railway Co., to-day received the following telegram from Earl Grey, dispatched as soon as His Excellency heard the news of the bush fires in Porcupine and Cochrane: "St. John's River, Que., via Ottawa.—Have heard with deepest regret about the disastrous fires in northern Ontario. Please express my heartfelt sympathy with those bereaved and injured. I much hope the loss of life was not so great as the reports indicated." (Sgd.) "GREY."

A telegram from President Coughlin of the Toronto Board of Trade, who is now in the Porcupine, stated that the Porcupine relief committee to-day decided that the \$1,000 donated by the American Red Cross Association at Washington should be set aside as a nucleus of a fund to erect and maintain a hospital at Porcupine. A committee will be appointed from the towns of the district to carry out the project.

### COAL SHORTAGE.

Nelson, July 21.—A joint meeting of all the boards of trade of East and West Kootenay, the Boundary and Southern Alberta will be held on Monday afternoon at Inland, Alberta, to consider the serious consequences arising from the coal strike, as the whole territory is practically without coal and the smelting industry is being crippled by the huge additional expense of importing coal from Pennsylvania.

### TO MEET AT TORONTO.

St. Catharines, Ont., July 21.—At yesterday's meeting of the Grand Lodge of the Masons of Ontario, Aubrey White, Toronto, was elected grand master unanimously, and W. D. McPherson, M. P. P., Toronto, deputy grand master on the third ballot. In the contest for the next place of meeting, Toronto won out against Port Arthur and Hamilton.

### SUIT AGAINST RAILWAY.

Denver, Colo., July 21.—Suit in the amount of \$15,000 was filed against the Union Pacific in the federal court yesterday for alleged violations of hours of service law, passed by congress in 1907. The complaint charges that the railroad company has violated the act 28 times. The penalty for each violation is \$500.

THE BRONCHO BUSTER

—The Denver Times.

## WORKING FOR ARBITRATION

### BRITAIN PRACTICALLY AGREES TO TREATY

#### President Taft is Anxious to Include France in the Agreement

Washington, D. C., July 21.—For the second time within a decade New England may claim the birthplace of one of the great treaties that make world history, for it may be that the general arbitration treaty will be known as the treaty of Beverly, just as the peace pact concluded between Russia and Japan was known as that of Portsmouth. It was intended that the arbitration treaty would be signed in Washington, and indeed hope has not been abandoned that this may be the case. But events are shaping so that it would not be surprising if the delays arising in the closing days of the negotiations should make it impossible to conclude them before President Taft leaves for his summer home in Massachusetts.

Although the British government has practically given its assent to the treaty, it is the wish of the president and Secretary Knox that this important agreement be given a truly international character, which can be had only by the adherence of more than two of the great powers. This desire has been made known to French ambassador Jusserand, now in Paris, who is laboring to induce his foreign office to give its assent to the adherence of France. If it is assured in the immediate future, it is entirely possible that the ceremony of signing the treaty will be deferred long enough to permit Mr. Jusserand to hasten to America to place his name on it.

The president has shown so much interest in the subject that he doubtless would be desirous of witnessing the conclusion of the treaty.

### REORGANIZING SYSTEM.

Toronto, Ont., July 21.—Following the announcement of the installation of telephones for train dispatching on the Grand Trunk Railway, an army of organizers have started over the entire system reorganizing every branch of the system which became disorganized to some extent by the strike.

### SENT TO PRISON.

Birmingham, July 21.—Joseph Murray, described as a well-dressed Canadian, giving his address as Toronto, was yesterday sentenced to six months for stealing a wallet containing \$5 and several cheques from the managing director of a large company here.

## MARTIN INTERRUPTED IN THE COMMONS

### Combats Opinion That Canadians Are in Favor of Imperial Preference

London, July 21.—Speaking in the House of Commons last night, Joseph Martin vigorously combated the opinion that the Canadian people favored Imperial preference. The speech was somewhat impeded by interruptions.

Mr. Martin said a considerable majority of the people of Canada were free traders in their hearts, and an honorable member interjected, "and in their pockets." Laughter followed. Mr. Martin said, "Yes, in their pockets," and added that the Canadian farmers were a prosperous people at the present time.

"Under protection?" asked an honorable member, ironically.

"In spite of protection," was Mr. Martin's rejoinder. "They are aware of the terrible poverty existing in this country."

"Under free trade," put in the same interrupter.

Donald McMaster and Hamar Greenwood also contributed to the debate. Out of seventeen speakers, five were Canadians, a fact which led Mr. Harcourt to say that it was a striking evidence of modern conditions and a hopeful augury for the future of the Empire.

## ENGINE FALLS INTO WELLAND CANAL

### Grand Trunk Railway Engineer Drowned—Fireman Jumps and Escapes Injury

Port Colborne, July 21.—At half past eleven last night a Grand Trunk engine and tender tumbled over the bank of the Welland Canal, drowning the engineer, Charles Smith, of Sarnia, and giving the fireman a ducking.

The canal bridge was swung open to permit a tug to pass up the channel. Apparently the train engineer was not aware of this, for he slowly started forward. The bridge had not closed when he reached the bank and both engine and tender toppled over. The fireman jumped wide of the wreck.

None of the cars went over on account of the slow rate of speed. Navigation of the canal will be completely blocked until the engine can be removed. The financial loss to shippers from the blockade of traffic will probably be very great, as the passage on the canal during the past week has been the heaviest in its history.

## KING'S PROMISE TO PREMIER ASQUITH

### WILL CREATE PEERS TO PASS VETO BILL

#### Government Will Not Risk Measure Being Wrecked in House of Lords

London, July 21.—King George has given Premier Asquith his promise to appoint as many new peers as will be necessary to pass the veto bill.

This was announced this afternoon by the premier in a letter addressed to Mr. Balfour, and read at a caucus of Unionist peers at Lord Lansdowne's house.

The political problem has been narrowed down to differences between Lord Lansdowne and the Earl of Halsbury, as to the future Unionist action on the veto bill, and to-day's cabinet council had to make provision to meet a possible hostile demonstration on the part of the "last ditchers." Lord Lansdowne seemingly would be satisfied with Premier Asquith's assurances that he has authority to create all the peers necessary, but the Earl of Halsbury demands a secular demonstration, and as his following is an unknown quantity the government cannot afford to take the risk of being outvoted, as they might be if they created only a small preliminary batch of peers.

The committee meeting lasted two hours, and as a result of the conference the peers will be given no chance of wrecking the bill when it is sent back from the House of Commons.

Unless Premier Asquith is assured that the government measure will be passed it will not be again placed at the mercy of the peers until sufficient Liberals have been given patents of nobility to assure its acceptance.

### OBJECT TO CHANGE.

Los Angeles, Cal., July 21.—Just before it was time for the big steamer Yale to sail yesterday, more than fifty employees of the stewards' department, waiter boys, dishwashers, etc., walked out on strike and declared they would not go back until their rooms in the galley were restored to them. Capt. Bennett explained to them about the heavy travel since the wreck of the Santa Rosa, and that it would be necessary for them to bunk in the after dock compartment, or "glory hold," as sailors term this part of the ship. They refused to do, and the Yale pulled out minus many of her stewards' complement.

### SUMMER UNIFORM.

Ottawa, July 21.—Letter carriers at last will be comfortable in the hot summer days. The post office department has issued a statement that a new uniform for postmen, consisting of light shirt waists and new helmets, has been authorized. It will be available for issue during the present summer.

## TO-DAY'S BASEBALL

### NORTHWESTERN LEAGUE

At Vancouver—First Inning: Victoria, 0; Vancouver, 0.  
Second Inning: No runs.  
Third Inning: No runs.

At New York—R. H. E.  
St. Louis ..... 0 2 3  
New York ..... 4 8 0

Batteries—Harmon and Bresnahan; White and Myers.

At Philadelphia—Chicago-Philadelphia game postponed on account of rain.

## LOSES MEDAL BY ONE POINT

### TRINOR BEATEN IN SECOND STAGE OF KING'S

#### Capt. Garrod of Officers' Training Corps, Oxford, the Winner

Bisley Camp, Eng., July 21.—Scoring 45 at the first range and 43 at the second range, on the second stage of the King's prize to-day Lance Corporal Trainor, Toronto, who won the bronze medal in the first stage, was beaten out of first place in the aggregate for the two stages by 1 point only, the winner of the silver medal being Capt. Garrod of the officers' training corps, Oxford.

The second stage consists of ten shots each at 300 and 400 yards. These totals add on to the first stage aggregate in determining the second stage standing and the top hundred to-day shoot to-morrow in the final stage, being ten shots each at 800, 900 and 1000 yards. The King's prize men and the winning order is determined by the aggregate of those stages added to the aggregate of the first and second stages.

In the first or 300 yard stage to-day Trainor made 48. In the second stage Garrod made 45 to Trainor's 43 and therefore beat him by a point on the two ranges.

It was blazing hot, but otherwise weather conditions were perfect.

Following are the individual scores of the Canadians shooting in the second stage of the King's prize at 300 yards: Lance Corporal Trainor, 48; Pte. Bibby, 47; Sergt. Instructor Bayles, 43; Lieut. F. H. Morris, 46; Pte. Clifford, 46; Sergt. Russell, 42; Sergt. Martin, Calgary, 43; Captain Milne, Vancouver, 46; Lieut. W. O. Morris, Winnipeg, 43; Col. Sergeant Hodson, Calgary, 44; Lieut. Clark, Winnipeg, 42; Major McLean, 43; Lieut. Melkejohn, 45.

At 400 yards Canadians shot as follows: Trainor, 43; Bibby, 47; Bayles, 41; F. H. Morris, 44; Clifford, 42; Russell, 42; Martin, 48; Milne, 40; W. O. Morris, 43; Hodson, 43; McLaren, 38; Melkejohn, 42 and Clark, 42.

How close Trainor was to winning the silver medal is shown in these figures. He made 101 in the first stage when he won the bronze medal and 91 in the second stage, or an aggregate for the two stages of 192. Capt. Garrod, who won the silver medal, made 98 in the first and 95 in the second stage or a total of 193. Trainor is therefore handicapped but one point on entering the final stage to-morrow.

## SIDE WHEELER RUNS ON SHOAL IN FOG

### Captain's Coolness Prevents Panic Among Passengers Who Are Landed

Sault Ste. Marie, Ont., July 21.—The steamer Huron, the largest of the Star Line fleet of steamers which operates between Cleveland and this port, via Georgian Bay, ran on a shoal off Richardson's Landing to-day and tore a hole twenty feet long in her hull.

Two hundred passengers of the Huron were taken off as the vessel began to settle.

The Huron is said to have gone on the shoal in a fog.

Capt. M. C. Cameron of Detroit, commanded the steamer and his coolness prevented any panic among the passengers when the vessel struck, and all were taken off without difficulty.

The Huron is a side wheeler type of passenger steamer built in 1885; is 201 feet long, 32 feet beam and 533 gross tons.

## SUPT. HUSSEY DIED IN HOSPITAL TO-DAY

### WAS HEAD OF PROVINCIAL POLICE FORCE FOR YEARS

#### An Able Officer, Absolutely Without Fear, He Maintained Law and Order Everywhere

The death occurred at the St. Joseph's hospital this morning at 7 o'clock of Superintendent of Provincial Police F. S. Hussey, at the age of 59. Death was caused by a cancer of the shoulder and was not unexpected, as he had been suffering from the dread disease for over a year and had been practically bed-ridden from its inroads for the last month or so.

The announcement of Superintendent Hussey's death will be received with regret all over British Columbia, particularly as he was known by all as one of the bravest and most conscientious members of British Columbia's police force. Combined with these qualities he possessed a genial and kindly manner, which instilled confidence into even the criminals themselves, and the sharpness of a lawyer in working up a case, all of which made him the most feared guardian of the law on the coast.

The late Mr. Hussey was the oldest member of the provincial police force, joining the staff as a constable at Victoria on May 24, 1878. He was afterwards transferred to Yale and subsequently to Kamloops as government agent. From Yale he was removed to Kamloops, which was much troubled by Indian uprisings, and in May, 1891, he became superintendent of provincial police.

At the period of Mr. Hussey's most active service the province was infested with a great many men of rough character, who were attracted by the railroad construction work, and went with the immense amount of whisky selling to the Indians and troubles of minor kinds, aggravated by the difficulty in getting from place to place, it required a man of iron nerve and invincible determination to cope with the work. And yet during Mr. Hussey's regime, as superintendent, hardly a criminal escaped the meshes of the law, for, to quote Edward Pearson, an old-timer, who knew the deceased in the early eighties, "As soon as Mr. Hussey got on the trail the criminal might consider himself captured." Mr. Pearson was the magistrate at Lytton when Mr. Hussey served as government agent there and he states that never at any time during the latter's term of office was there any trouble with the Indians. Mr. Hussey was eminently fitted for dealing with the redskins. He gained their confidence and always treated them with kindness but never let them forget that they must behave.

Many incidents are told of the late superintendent's reckless daring and the stubborn manner in which he kept on the track of his men until he had finally brought the fugitive to justice. These qualities and his keen instinct for detection were well brought out in the Lynn murder case, of which he took complete charge. Hugh Lynn murdered two men on Savory Island in 1898 and, although he was a man of monstrous cunning and a noted gun-fighter, at the end of one year he was hanged on the scaffold through the instrumentality of Superintendent Hussey.

Lynn fled from Savory Island to Port Townsend, where he took refuge in a small hut with his Indian wife. Not many days afterwards Mr. Hussey arrived and after infinite trouble located the murderer's whereabouts. By this time one of Lynn's many friends had acquainted him with the fact that Hussey was in town and when the superintendent visited the hut he found the bird had flown. The case looked almost hopeless, for the Indians were in sympathy with the criminal and refused to divulge anything they knew of his hiding place. Hussey did not despair, however, and after several weeks of fruitless searching located his man on Scott Island. Approaching the hotel in which Lynn was supposed to be living, with the other policeman, Hussey suddenly threw open the door and discovered Lynn, with another desperado sitting on a bench, both with guns near at hand. Without even making a motion towards his own revolver Mr. Hussey walked inside holding the criminals helpless by sheer nerve, and handcuffed them both. Even then his work was not over, for no one had seen Lynn commit the murder and there was not nearly enough evidence to convict him. Mr. Hussey went to work with his accustomed energy, however, and when Lynn came up for trial it was proved that he was the murderer beyond any doubt.

The late Mr. Hussey was greatly respected by the government and had been often detailed for special work which required a man of unusual abilities. The collecting of taxes from Chinamen, which not many years ago was an extremely hard task, was given over to him on many occasions and never once did he fail in his undertaking. When not many years ago an Indian uprising was threatened at Kamloops Mr. Hussey was sent up to take charge of affairs and in a very short time the rebellious redskins were quieted.

(Concluded on page 14.)

## THE LATE FREDERICK HUSSEY

The Superintendent of Provincial Police, who died early this morning, had a long and most strenuous and picturesque career, beginning back in the days of Chief Justice Begbie.

Hello There! Mr. Auto Man!

YOU CAN'T AFFORD TO BE WITHOUT

### CAMPBELL'S AUTO LUSTRE

It's a Time Saver when cleaning your Machine. It will make an old machine new. You can shine your auto up in half the time and with a quarter of the trouble. ## IN HIGH SCHOOL ENTRANCE EXAM.

### SUCCESSFUL CANDIDATES AT PROVINCIAL CENTRES

Miss Bessie Smith, Chilliwack,  
Heads the List—Victoria  
Pupils Stand High

Last evening the department of education handed out the results of the High School entrance examinations at urban centres, showing 848 candidates successful out of 1,437 who wrote. Miss Bessie Smith, Chilliwack, leads the province with 568 marks. The Governor-General's bronze medals have been awarded as follows:  
Chilliwack—Bessie Smith, Cumberland—Marion Gray, Grand Forks—Linda McRae, Kamloops—W. J. E. Wyllie, Kelowna—William S. McKeown, Ladysmith—Marguerite Austin, Nanaimo—Dora Critchley, Nelson—Myrtle E. Palmquist, New Westminster—Ruth E. Agar, Revelstoke—Muriel Fleetman, Rossland—Gladys M. York, Vancouver—Bessie Watson, North Vancouver—Madge Gill, Vernon—Carrie E. Bowles, Victoria—Edith L. Harris.  
The successful candidates, by centres, were:

#### VICTORIA CENTRE

Boys' Central.  
First division—Number of candidates, 37; passed, 28: Harold G. Carne, 748; Paul H. Clyde, 721; Leonard Dauphin, 709; Arthur L. Wheeler, 697; M. Herbert Tall, 676; W. Spencer Dea, 667; George H. Miles, 646; Warren W. Waterson, 628; William M. Baker, 623; William F. Rendall, 622; John R. Goodwin, 621; Thomas P. Forrester, 620; Alexander Forrester, 625; Harold Stevens, 620; Leslie O. Belbeck, 612; Edward J. Hopkins, 611; Kenneth Greig, 610; Hugh D. Mitchell, 601; Edward P. Hardwick, 599; Charles R. Moss, 578; Robert C. Lang, 576; Robert H. McRady, 571; A. Gerald McCoy, 571; Arthur E. Mason, 564; Edward K. Dalsiel, 560; Troy H. Hodgson, 550; Adam C. Knox, 550; Utley Terry, 550.  
Second division—Number of candidates, 17; passed, 3: Bertram Drysdale, 614; Philip Smith, 560; Howard S. Carter, 558.

#### Girls' Central.

First division—Number of candidates, 29; passed, 22: Teresa Robinson, 630; Joyce Morat, 626; Emma Butler, 628; Muriel Grant, 625; Evangeline Curry, 610; Annie E. Banner, 608; Marjorie Meredith, 603; Kathryn S. Hunter, 593; P. Henrietta Robertson, 584; Melba B. Lehman, 583; Annie W. Elliott, 564; Ruth Cockburn, 559; Betty Kewar, 550.  
Second division—Number of candidates, 10; passed, 6: Caroline E. Townsend, 623; Lillian R. Kingston, 629; Agnes Cann, 601; Olive M. Ald, 600; Margaret H. Sanson, 582; Helena M. Wheeler, 580.  
George Jay.

First division—Number of candidates, 14; passed, 11: Reginald Richy, 778; Nora E. Moore, 717; Archie Wood, 697; William G. Stubbs, 684; Frances M. Norris, 658; Edna Finland, 653; David Staples, 645; Vina Fawcett, 641; Margaret L. Hampton, 620; Hermie M. Lyons, 613; Percy E. Willis, 600.  
Second division—Number of candidates, 1; passed, 0.

#### North Ward

First Division—Number of candidates, 35; passed, 25: Edith L. Harris, 948; Edward M. Little, 718; Madeleine Chivers, 692; Walter J. Heater, 675; Isabel D. Todd, 663; Davis Chas. Moore, 643; Alan G. White, 642; Walter P. Hall, 639; Stanley H. Vescott, 631; Maude E. Basso, 622; Eleanor B. Nicholson, 621; Grace M. Ledingham, 620; Helen Bryne, 615; Arthur Hendry, 608; Chloé Sear, 593; Lena Miller, 582; Maude Humber, 582; Hazel A. Engel, 580; Edgar Barnes, 574; Agnes Beane, 572; Violet A. Roberts, 568; Ralph W. Smethurst, 565; Earl H. Lamphere, 560; Eureka Gillen, 557; Rilda B. Stepien, 554.

#### South Park

First Division—Number of candidates, 27; passed, 15: Douglas Drury, 723; Willie Smilie, 663; Helen E. McQuarrie, 641; Norma Clark, 635; Donna Kerr, 626; Kenneth MacLean, 625; Gladys McDonald, 611; Arthur Anderson, 609; Marjorie Fleming, 596; Cecil Frampson, 577; Albert Leigh, 575; Harold Bendrodt, 566; Curtis Dean, 556; Robert Watson, 554; May MacLachlan, 554; Mildred Cuthbert, 550; Nellie Falconer, 550; Annie Smilie, 554.  
Second Division—Number of candidates, 17; passed, 10: Douglas Markie, 704; Ethel Lappington, 684; Marjorie Hirst, 673; Margaret Anderson, 678; Olive Brethorn, 560.

#### Victoria West

First Division—Number of candidates, 16; passed, 10: Guy S. Sommerville, 639; Madge J. Collins, 614; Amy D.

Colby, 598; William G. Gerow, 585; Margaret Redding, 584; Amy R. Collier, 583; Victoria M. Walker, 580; Winifred G. Sutton, 577; Louis C. Pichon, 575; John M. Shakespeare, 567.  
Oak Bay—Number of candidates, 5; passed, 2: Charles H. Fleming, 606; Frances E. Phipps, 573; Dudley H. Johnson, 550.  
Saanich, North Dairy—Number of candidates, 1; passed, 1: Fred Borden, 563.  
Colwood—Number of candidates, 1; passed, 0.  
Esquimalt—Number of candidates, 10; passed, 2: Donald MacKay, 664; Angus M. Robertson, 565; Irene M. Burnes, 550.

St. Ann's Academy—Number of candidates, 9; passed, 6: Patricia H. Burns, 582; Marjorie Robertson, 580; Gladys Ramiose, 587; Dora B. L. Lawder, 563; Ruby Hemans, 550; Maria A. Sweeney, 550.  
St. George's School—Number of candidates, 4; passed, 2: D. May McBride, 623; E. Regina F. Verrinder, 572.  
St. Louis College—Number of candidates, 2; passed, 0.  
Private Study—Number of candidates, 1; passed, 1: Eliza J. Robertson, 641.

Duncan Centre.  
Municipality of North Cowichan: Chemainus—Landing Site candidates, one passed: Sophia Horton, 550. Duncan—Fifteen candidates, two passed: Laura C. Henderson, 652; and Winifred J. Murton, 553. Maple Bay—Three candidates, two passed: Robert Cran, 580, and Catherine O. Estridge, 550. Somers—Two candidates, neither of whom passed.

Non-municipal schools: Bench—One candidate, did not pass. Cowichan—Three candidates, one passed: David Constable, 575.  
Ladysmith Centre.  
Ladysmith—Fifteen candidates, seven passed: Marguerite Austin, 621; Mildred M. McKinnell, 620; William R. Beattie, 624; Dorothy K. Williamson, 613; Fanny Michie, 586; Harold Jones, 550; and John W. Southin, 550.

Non-municipal schools: Extension—Four candidates, none passed.  
Private school—St. Anne's convent—One candidate, passed: John Zboyovskiy, 588.  
Nanaimo Centre.

## GRANBY COMPANY TO SPEND MILLIONS

### PLANS EXTENSIVE WORKS AT OBSERVATORY INLET

Site for Smelter Has Not  
 Yet Been Definitely  
 Selected

Vancouver, July 21. — That several millions of dollars are to be spent in the development of the property of the Granby Consolidated Mining & Smelting Company, Limited, at Goose Bay, Observatory Inlet, Portland Canal district, in the course of the next few years, is the announcement of F. M. Sylvester, general manager of the company, and Geo. W. Wooster, treasurer, who are in Vancouver.

W. Williams, former superintendent of the company, but now its consulting engineer, is now making an extensive tour over the mining territory of northern British Columbia and southern Alaska with the view of ascertaining the possibilities of establishing a large smelting industry near the property of the company at Goose Bay. He is also examining closely the mining claims in the district, with the view of exploiting and developing them.

The company intends to not only open up its own property and buy additional claims, but to establish a large smelting trade as well. At Goose Bay there is already a twenty drill compressor, which the concern intends to add to immediately, piers, wharves, roads and a sawmill of 40,000 feet capacity are under construction now and will be completed in the course of the next few months.

In speaking of the project, Mr. Sylvester said: "There are a great many things to be considered in the location of a smelter, of which the site is probably the most important. In this connection Goose Bay is almost ideal, as it is accessible to the vast mining territories of the north and is also but a short distance from the Hidden Creek group of copper claims which are owned by the Granby Company."

"It will be recalled that the Granby Company took up the bonds of the Hidden Creek group a little over a month ago, after doing much preliminary work in drilling and prospecting. In developing these properties the company intends to spend a large sum of money. There are already eighty men there and more are to be employed soon. Of these miners, who are on the claims now, nearly all are picked men from the company's mine at Phoenix."

"We are now putting in a conveyor and tram line from the mine to the water, a distance of about three miles. This will connect directly with the smelter. In addition a waterpower is being developed, and it will, in the course of nine or ten months, develop 3,000 horse power."

Mr. Sylvester added that O. B. Smith, Jr., superintendent of the Granby mines at Phoenix, is now at Goose Bay inaugurating and directing the preliminary work, and made reference to the work being done at Grand Forks, saying that six of the eight furnaces there are running full blast and are handling about 4,000 tons of ore a day.

"Because of the strike among the miners at Phoenix, no coke is obtainable from that source for the company's smelter at Grand Forks. It is therefore necessary for the company to get its supply from Connellville, Pa., where coke is of as good quality as can

## Women Need

sympathy and help when they are attacked by weakness and suffering. At times when Nature seems cruel and very hard—when depressions and derangements come—kind womanly friends may give sympathy. When ailments occur, the best natural help and correction is the safe and well-tried family remedy

## BEECHAM'S PILLS

They correct the result of errors and remove the cause of suffering. They have tonic, helpful action on the whole system. They relieve nervousness, headache, backache, dispel depression and suffering. Beecham's Pills give the organs strength, improve bodily conditions and may be relied upon

Corner Yates and Douglas Streets. Telephone 591.

## THINKING THEMES BY DR. FRANK CRANE

Sensitive persons should avoid intimacies and all intimate callings. One can love his fellow-men, and yet not be able to live with them, on account of his thin hide.

And, myself, that real flesh-and-blood people are to get along much better with the ideas of them. To live in perpetual rub and contact with even the best of people becomes an exquisite torment. They hurt me in a thousand ways, of which they are unconscious. Hence I could never be any sort of a politician. For years I was pastor of churches, and under the urging of friends, counsellors and relatives, whom I suppose ought to know more than I, I tried to be a "good mixer." I was a miserable failure. The people absolutely crucified me. I withdrew from the pastorate as a "naked man" withdraws from a sleet-storm. And I love people. I am intensely sociable. I crave my fellows. I hate solitude and adore cities and large families. Only, I have learned that I must take all this in careful doses, else I am intoxicated and upset. For I have never seen many human beings that could stand very much of me. I am always a little sad to see the flower of appreciation bloom in any one's eye toward me; for I fear, from experience, that so sure as such a one comes to know more of me, he will find something he doesn't like.

Out of all the thousands of people I have known there are perhaps four or five with whom I can be perfectly natural, with whom I dare be at ease without fear of being misunderstood. God bless 'em!

be had. This necessitates a long haul by rail and makes the fuel much more expensive."

George W. Wooster, who has been treasurer of the Granby Company since it was first organized, recently spent two weeks at Goose Bay directing the organization of a new system in the office there.

## PROPOSAL TO BUY STREET RAILWAY

Mayor Evans of Winnipeg  
 Tells of Progress of  
 Negotiations

Winnipeg, July 21.—For the past two or three days rumors have been circulating that the purchase by the city of the Winnipeg Electric Holdings owned by Mackenzie and Mann, lock, stock and barrel, including the power plant at Lac Du Bonnet, the street railway, gas and electric lighting plants, etc., capitalized at over \$12,000,000, was on the eve of consummation. Yesterday Mayor Sanford Evans issued a statement outlining the course of recent negotiations which, after discarding the alternative propositions offered by Sir William Mackenzie, boiled down to whether or not it was worth the while of the city of Winnipeg to buy out the company as a going concern. Sir William made an offer in this respect on the basis of \$200 per share in cash or bonds guaranteed by the city and bearing 5 per cent. interest.

Mayor Evans went on to state that during his recent visit to London he had ascertained that the amount involved could be financed without detriment to the city's credit. If the price paid were reasonable, a reasonable price, he estimated, should allow the following charges made out of net income mainly from the street railway: Interest on outstanding bonds and taxes as hitherto, sinking fund, a balance that would provide 7 per cent. on the issue of city debentures to meet the 5 per cent. purchase price.

His words went on to say that the city was asked to reach an immediate decision on the offer of Sir William, who would not reduce the purchase price, that the matter had been fully considered by the city council and that the general opinion was that the offer was not unfair, provided and always reserving that an audit of the company's books showed the necessary 7 per cent. profit on the price. Mayor Evans said that the proposition might well be submitted to an early vote of ratepayers and said that although at this time he is only concerned with the financial aspects he suggested that if the city bought out the company its various interests should be administered by a competent commission.

### WORK ON THE MAINE

More Fire-Scorched Bones Found Near Overturned Conning Tower

Havana, July 21.—All the water in the coffeehouse surrounding the Maine has been removed, showing the wreck imbedded in the mud. That portion of the ship immediately forward of the central superstructure, which was demolished, has disappeared, except for some jagged pieces of rusted steel protruding above the slime. The engineers will to-day begin the work of drawing out the soft mud by suction and dissecting the great confused masses of metal.

The bow section, represented by the plates and beams of the bottom of the ship, now stands upwards of 20 feet high. All portions of this section have been identified and photographed. The aft midship section of the berth deck, on which were the ward-room and the officers' state-rooms, is fully exposed, but is almost entirely filled with mud, especially on the port side.

Hopes are entertained that in this section may be found the body of Assistant-Engineer Merritt, believed to

have been in his state-room at the time of the disaster.

Some fire-scorched bones were discovered yesterday afternoon in the vicinity of the overturned conning tower, where the remains of probably four bodies were previously found. It is believed that these were members of the crew who at the moment of the explosion were asleep in hammocks suspended from the ceiling of the forward berth deck, which was blown up and folded back over the central superstructure fifty feet aft of the original position. The remains cannot be identified.

### LOGGER DROWNED

Houlihan, Wash., July 21.—The accidental drowning of Gus Bonn, and an injury that cost Oscar Sandberg the loss of his right foot was the toll paid in the logging business here. Bonn, while driving his own logs, fell into the river and was drowned before assistance could be given him. He is 33 years of age and leaves a wife and child. His body was recovered at low water. Sandberg, while sniping a log, had another log roll on his foot, fracturing the bones and necessitating amputation of the member.

### MAY ABANDON AVIATION.

Erie, Pa., July 21.—Sore in body and limping perceptibly, J. C. (Bud) Mars left the hospital here, where he has been recovering from injuries due to a fall with his biplane last Friday. Mars went to a hotel here, where he will be confined to his room for several days.

Mars said he would not attempt another flight for at least six months, and might abandon aviation. He is contemplating taking another trip around the world, and says it may be years before he is seen in another aeroplane flight.

### FOUR PERSONS INJURED.

Muskogee, Okla., July 21.—Four persons were injured in a wreck of the Midland Valley railroad passenger train No. five, when it plunged through a bridge near Avant, Okla.

The wreck was caused by driftwood undermining the timbers of a bridge. The engine and baggage car passed over the bridge safely, but the "Jim Crow" car broke through.

### Chauncey Olcott

Chauncey Olcott, who will shortly appear here in a new Irish play, entitled "Macushla" (Pulse of my Heart), is happiest in one of the dramatic, dashing characters of the nineteenth century. Rida Johnson Young, who has given him the new play, had him ever in mind when writing it and has furnished him with a role that will undoubtedly be one of his most famous creations.

As the young Irish aristocrat who stakes his all on the swiftness of his favorite mare and rides her himself to fame and fortune there is a dash, a wild romance, and yet, without a softness of the Irish gentleman which requires a fine art to properly portray. Mr. Olcott has that art and gives it full swing in the wide scope of the character, thus creating a character that is new in the drama of our times at least.

That most able of stage directors and managers, Augustus Pictou, has equipped his star with an excellent supporting company and a production of such significance as one rarely sees outside of a metropolitan theatre. Mr. Olcott's songs, as usual, will be a feature of the performance and it is whispered that he has some of the best ever written waiting to be sung in "Macushla," in which he comes to the Victoria Theatre on Friday, July 28.

### FIRE AT LADYSMITH

## BRITISH INVESTMENTS IN CANADA.

The current number of the Monetary Times presents a table which is an interesting study respecting the nature and extent of British investments in Canada covering a period of six immediately past years. The table shows, as has already been the subject of comment in the Times, that the favorite investment of the British investor is in securities and that the more commonly speculative opportunities offered are not enticing.

Without entering into extended analysis of the table, presented in the Monetary Times, it is shown that the amount of money borrowed in Great Britain by Canada for industrial, light and power purposes in 1910 was \$15,388,706, or more than three times the amount borrowed in 1905. But for the first three months of the present year the amount borrowed from British sources for similar purposes had already reached the enormous sum of \$11,011,438, or more than two-thirds the entire amount of the year previous.

While government, municipal and railway securities have long been regarded as safe investments for foreign capital, the Monetary Times sees a hopeful indication in the fact that British investors are acquiring a fuller knowledge of localised industries and there is an evident tendency to exploit this field of investment more extensively than in former years. It predicts that if the present tendency continues we may find the Britisher and the American keen rivals, not only for the import trade in Canada, but for investment in and financing of our industrial growth.

The more direct application of support to industrial enterprises in Canada by British capitalists takes the form of investment in dry dock and shipbuilding undertakings. About \$20,000,000 are already actually invested or are negotiated in enterprises already well organized.

The investments represented under this class are as follows:

Company.	Proposed Location.	Estimated Cost of Dry Dock.
Vancouver Dry Dock & Shipbuilding Co.	Burrard Inlet.	\$1,214,150
Canadian Vickers, Ltd.	Esquimalt.	4,000,000
British Columbia Marine Railway Co., Ltd.	Esquimalt.	3,000,000
Grand Trunk Pacific Railway Co.	Prince Rupert.	2,000,000
Dominion Dry Dock Co.	Levis.	.....
Esquimalt Graving Dock & Shipbuilding Co. Pacific Coast.	Esquimalt.	2,637,800
British Canadian Shipbuilding & Dock Co.	Sydney.	6,000,000

The opportunities for investment of extensive capital directly in what, in Canada, are considered manufacturing enterprises do not strongly appeal to British capitalists. The sole reason for this condition appears to be because the purchasing power of the community of the Dominion is too small. To develop extensive manufacturing in Canada would necessitate the entrenchment of a large export trade and this appears to be more easily commanded from the various centres of the United Kingdom where they are already rooted. Sir William Priestly, a prominent British manufacturer who recently visited Canada,

expressed himself very forcibly on this feature of the situation. He said:

"For example, in British Columbia, I was asked why I, in the worsted trade, could not establish a concern in that province. I replied that their area was as great as France, Prussia and Bavaria together, but that their population, for purchasing power, was only a little greater than my city of Bradford in England. Therefore, it would be foolish for me to think of establishing a manufacturing concern in British Columbia, or even for the Canadians to expect such a concern to set to them economically. The demand upon variety in Vancouver and Victoria is just as great with respect to men's wear and women's wear as it is in my great city of England; and no manufacturer of men's wear and women's wear could possibly make a profit of the consumption of the people of British Columbia, because the cost of production would be so tremendous, to meet all the varied demands. Besides, if politicians in Canada look into the question seriously they will find there is some natural cause why certain industries have centred in certain districts and in certain countries; and before an English manufacturer in any branch of industry could say he could establish an industry in any part of Canada, he would have first to go very deeply into the natural conditions—water, humidity, and many other qualities—that are necessary to different industries."

"After putting the matter in this crude way, I seriously believe that what she must do is, first, to increase as rapidly as possible her population, and thereby increase her productive power, and her purchasing power."

This is not necessarily discouraging, as it can only refer to manufactured articles of certain classes. The raw materials of British Columbia—of which the conversion into finished articles is the British idea of "manufacture"—are so abundant that they must find their exploitation by manufacture. Moreover, their locality is the natural field for manufacture and the factories must soon come, like Mohamets, to the mountains.

## TO THE BITTER END

The reference back to the British House of Commons of the Veto Bill by the House of Lords on Wednesday pushes the question of constitutional reconstruction a stage nearer its finality. There is only one more ditch left the Lords for defence, and that will be the final vote when the bill is again sent up from the Commons. Naturally it is a critical and uneasy time for all the parliamentarians and peers of the realm, for little more than a week will elapse before the final locking of horns in the probable death grapple must take place. The government has clearly intimated that it will accept no amendments to the bill as at first sent up, and it has been stated that Premier Asquith is ready with a list of new peers awaiting creation in case it becomes necessary to administer the final coup to the Lords as the case now stands. But there is no necessity for any alarm at the prospect of a constitutional crisis in which the Throne itself might be involved. The Lords will yield, or "drink the hemlock," to use the figure which has been aptly applied to the case.

The only point of difference between the two Houses with which Canadians will be inclined to manifest interest is the contention of the Lords that their veto power over bills respecting public expenditures should be maintained. The bill as sent up from the Commons deprives the Lords of veto on money bills and makes the Speaker of the Commons the arbiter as to which are

Local bills. It is contended by the Lords that all sorts of fresh legislation may be smuggled in under pretence that the bill belongs to that class over which the absolute control is sought by the Commons. In a corrupt parliament this might become true, and it would appear that a radical House might take advantage of such a power to carry party measures which might not be wholly in the interest of the country. We in Canada know that the Senate, abusive of its power as it has sometimes been, has nevertheless acted as a salutary check on "debateable legislation." The difficulty of the situation is that an Upper House may become as violently partisan as the Commons. This was once or twice our trouble in Canada, and has in recent years been the chief fault of the Lords' chamber.

Sir Max Aitken, M.P., was worth exactly \$300,000 worth of "great service to the Unionist Party" in the United Kingdom.

Mr. R. L. Borden and his party are the people who say it should be done, meaning an Imperial preferential trade arrangement. Sir Wilfrid Laurier and his party are the people who are already doing it.

The Montreal Herald says: "Faced with the prospect of an immediate election on reciprocity, those who have been demanding it, have started in to talk about redistribution. They might as well let the agreement be voted, and then they can talk redistribution till the cows come home."

Rev. Mr. Morrow, of Toronto, announces that if the hot weather continues he will preach in his shirt sleeves next Sunday and he invites people to attend his church in any decent hot-weather dress that suits them. Our curiosity is to learn what would be considered "decent" hot weather dress in good old Toronto.

News of the death of Mr. S. F. Hussey, Chief of Provincial Police, will be read with deep sorrow throughout the province of British Columbia. As an officer in the department over which he eventually became the head Mr. Hussey gained fame for his coolness when faced with "bad" men of the early days. He was tactful as well as courageous, however, and we do not know that he was ever called upon to "pull his gun" when faced with criminals of the dangerous type. Mr. Hussey played a prominent part in establishing the reputation British Columbia has gained as a part of the Empire in which British law and order have been well maintained.

The Colonist professes to be deeply concerned about the nature and effect of the proceedings of the late Imperial Conference. It wants the Prime Minister of Canada, who was admittedly the sagacious leader in the Conference, to make a "dignified" exposition of the facts. Perhaps statements from the mouths of Hon. Andrew Fisher, Premier of Australia, and Sir Edward Morris, Premier of Newfoundland, on the subject, will convey balm to the distressed soul of our contemporary. Here is what these two distinguished gentlemen had to say on the subject, speaking at Edinburgh on the occasion of their receiving the "freedom of the city": Mr. Fisher said he believed that among all the Colonial Conferences that had been held, perhaps the last had done most to broaden the foundation on which they could build higher than would have been possible under previous conditions. Hitherto the Conference had discussed matters that did not concern the vital interests of the Empire. This time His Majesty's advisers thought it wise to take the Colonial representatives into their full counsel, and unreservedly tell them what they had to do for the preservation of their honor and safety. He thought it was enlightened statesmanship that gave them the courage to do that. He felt he ought to say in doing so they had greatly strengthened those unspoken but very near and dear bonds that united them to each other. Sir E. Morris said that at the Conference they had made a step forward. If they had not been able to accomplish all that they desired, they would be able to tell their several Governments and peoples that they had been admitted to full partnership as regarded the British Empire, that they had celebrated their coming of age, and that with that partnership they were to assume full responsibility as regarded contributions towards the State.

# Saturday in the Men's Clothing Sections

## A Clearance of Men's Summer Suits, Vests, Flannel Pants and Straw Hats

We are determined to sell the whole of our stock of Men's Summer Clothing during the next few days and have reduced our prices to the lowest notch in order to bring about the desired result. It is absolutely necessary for us to clean out the whole of our summer goods by the end of this month, before we begin stock-taking. Then again, we require all our available shop space to accommodate the new Fall goods that are due to arrive at the end of August. That's the reason for the reductions. It's your last chance this season to buy such high grade goods at such a low price. Don't judge the quality of the goods by the low price.

**MEN'S SUITS** in fine finished worsted and tweeds, well tailored and trimmed in all the latest styles and patterns. Regular \$20, \$22.50. Price ..... **\$14.75**

—About six o'clock yesterday after-  
noon a collision occurred on Store  
street between two cyclists, Lewis  
Gordon and Nicholas Gowen. Both  
were thrown from their wheels and  
Gordon was rendered unconscious. He  
was removed to St. Joseph's hospital  
but his injuries were not serious and  
he left the hospital this morning.

—The annual picnic of the Taber-  
nacle B. Y. P. U. was held at Fishers'  
Castle, Esquimalt, on Wednesday even-  
ing. Supper was served about seven  
and after justice had been done to the  
good things provided, many games were  
played until dark. About thirty gathered  
round a bon fire on the beach and  
songs were sung for about an hour,  
this bringing to a close a very pleasant  
evening. At the regular meeting to be  
held on Monday Owen Roberts will  
read a paper on "Diaz, the pioneer  
missionary to Cuba."

—The meeting of the Political Equal-  
ity League on Wednesday night in the  
new quarters on Yates street was  
most successful. A reception was  
given to Miss Bruce, who arrived re-  
cently from England and will act as  
organizing secretary for the Victoria  
league. Mrs. Graves delivered an in-  
teresting address. Although the mem-  
bership has increased greatly since the  
founding of the league and liberal suc-  
scriptions have been made towards the  
furnishing of the new hall financial  
help is still needed.

## HOW THE PAVING IS PROCEEDING

A TRIP ROUND THE  
"CONTRACTED" AREA

Asphalting Commences First  
Day of August—Advance  
of Concreting and Grading

In a purely figurative sense the city  
of Victoria is being run at the present  
time by the Canadian Mineral Rubber  
Company, the paving contractors, who  
were recently awarded the gigantic  
contract for the paving of Victoria's  
streets. The city is run by this or-  
ganization in so far as its terms and  
conditions on the job far outnumber all  
the other teams in the city put to-  
gether.

Painted in glowing scarlet with a  
scheme of yellow lettering bearing the  
company's name these wagons, which  
by the way are of a patent character,  
being capable of evacuation by the  
pulling of a lever, and without even  
stopping, are to be encountered daily  
in all parts of the city from the water-  
front to Ross Bay and from the ex-  
treme north of Government street to  
the extreme east of Dallas road. This  
concerted movement signifies as noth-  
ing else could very well do that the  
company is at last grips with its  
great contract and a tour of inspection  
round the city in one of the company's  
autos fully convinces one of the cer-  
titude of that significance.

Preliminary work has been started  
on a large number of streets in dif-  
ferent sections of the city, but more es-  
pecially round the Ross Bay area, and  
it is calculated that by the first of  
August a sufficient yardage—probably  
50,000 to 75,000 cubic yards—of con-  
crete will be laid to warrant the com-  
mencement of the asphaltting. At  
that rate arrangements are being made  
with that end in view, so that Vic-  
torians will be in a position to view  
the first of this company's completed  
pavement in a very short time.

Up till yesterday only one concrete  
mixer was in operation. Another was  
put into commission to-day, and it is  
stated that the third will be requisi-  
tioned very shortly. All the company's  
plant, including the two 135-ton as-  
phalting plants, are now in the city; a  
notable part of which is the specimen  
of the Western Wheeled Scraper  
Company's road plough, a combination  
apparatus that should prove something  
of a revelation in the gentle art of  
delving stubborn roadways or other  
elemental compounds that offer almost  
insuperable difficulties to the man-  
ual laborer.

Once the asphaltting is commenced it  
is asserted that from 4,000 to 5,000  
square yards of paving will be laid per  
day. This extraordinary output means  
that the concrete work must have a  
big start, because it has to lie on the  
street for at least ten days before the  
asphalt can be placed over it. That  
the company can implement these as-  
sertions is heartily supported by the  
work that has already been done, par-  
ticularly on Yates street, where, with  
only one mixer in operation, 8,500  
square yards of concrete were laid be-  
tween Friday of last week and yester-  
day.

As another example of the capabili-  
ties of this mixer it may be stated that  
in two hours' time yesterday morning  
550 yards were laid on Yates street.  
It can be imagined, therefore, at what  
rate of speed the concrete will be turned  
out when all three mixers are en-  
gaged on the contract.

Of course, the method of filling and  
delivering has much to do with the  
speed attained, and it must be said  
that in this connection the company  
has nothing to learn. The material  
necessary to the compound is located  
within the mixer, and as it is churned  
through its various phases into the fin-  
ished article it automatically deposits  
itself into the waiting carts, which  
move off to the scene of the layer.

The entire process is an interesting study  
in time-saving.  
From the Yates street operations it  
is but a brief run to Ross Bay where,  
as may be recalled, the company have  
a large number of streets for treat-  
ment. Already nearly all of them are  
graded and curbed and guttered, and  
in a few more days will be subjected  
to the churning process. As a mat-  
ter of fact, it is in and around this  
district that one is enabled to observe  
the amount of work that the company  
has in hand. Down town, where the  
wagons are to be seen depositing the  
concrete at the street corners, the  
conviction might innocently arise that  
the company was running more a bluff  
than a contract, but in the outlying  
districts it can be ascertained that  
bluff is no part of the execution.

There is no bluff like the royal flush,  
and in the matter of execution, at  
least, the Canadian Mineral Rubber  
Company appears to have a full hand.  
In a work of this kind difficulties are  
to be expected. Rock is sure to be en-  
countered somewhere, and the com-  
pany has certainly had some experi-  
ence of it here. Up till now, however,  
no shooting has been indulged in, but  
it is to be expected before long in  
places which are at the present time  
more rock than road. Then again, a  
vast amount of dirt has had to be re-  
moved as a result of the cuts which  
were found to be essential to the  
proper grading. It is in this work that  
the new combination plough will be  
employed. This novel machine not only  
makes the cut but it removes the  
dirt by scattering it up and depositing  
it into a wagon which can be hitched  
on at the side opposite the plough, and  
the whole, instead of tearing the soul  
out of teams of horses, will be drawn  
by a steam engine already here for the  
purpose.

In the Dallas Road district many of  
the connecting streets have been curbed  
and guttered and are now awaiting  
the advent of the concrete. Gangs of  
workmen are scattered all over the  
city, and on a rough estimate there  
must be at least two hundred men em-  
ployed at the present time.

The last, but by no means the least  
interesting feature of a tour round the  
works, is to be found at Spratt's wharf,  
where the two mammoth asphaltting  
plants have been located. In view of  
the early start to be made on this  
branch of the work the plants are now  
in perfect readiness. The necessary  
material is also at hand.

Spratt's wharf, which of course is  
one of the company's principal land-  
ing stages for material, is also here-  
tofore a magnificent derrick, which  
boat of which can only be described  
as colossal. To view such a boom  
growing in any part of the country  
must be rare indeed, as nature, al-  
though she may be bounteous, is sel-  
dom extravagant, and extends her-  
self in the production of such timber with  
such but prodigality. The "clam  
anything" attached to the derrick for the  
purpose of unloading sand and gravel  
is capable of "bitting off" a yard and  
a half at a time.

The asphaltting plants are a sort of  
tubular arrangement through which  
various ingredients are passed un-  
til they attain a certain heat, some-  
thing like 200 degrees, after which they

## ERRATIC PITCHING BY LATEST RECRUIT

Beavers Make It Four Straight  
Thorsen Not Steady  
Support Poor

The Beavers made it four straight over the Islanders at Vancouver yesterday, winning by a score of 10 to 1. Thorsen was erratic and was accorded poor support. Errors and passes gave the Beavers a big lead in the third inning. Jimmy Clark held the Islanders to five hits. Victoria's lone run resulting from a home run by Ten Million in the fifth period. The score:

	A	B	R	H	P	O	A	E
Willet, I. f.	3	1	4	0	0	0	0	0

Passed ball—Lewis. Hit by pitched ball—Lewis. Double play—James to Scharnweber to Adams; Brinker to Scharnweber to James; Ward to McMurdo. Left on bases—Vancouver, 7; Victoria, 2. Time—1:44. Umpire—Allen and Starkell.

TIMELY HITTING WINS.  
Timely hitting gave the Giants yesterday's game over the Spokane Indians at Seattle by a score of 6 to 2. Both teams played gill-edged ball in the field. The feature of the game was Bues' home run. He drove the ball directly up against the flag pole far above the ground. The score:

## CRICKET

TO-MORROW'S GAMES.  
Victoria vs. Portland C. C.; Oregon. Albion C. C. 1st XI vs. Garrison C. C.; Work Point.  
Esquimalt C. C. vs. Albion 2nd XI; Beacon Hill.  
Saanich C. C. vs. Victoria C. C. team "B"; Jubilee Hospital grounds on all day game beginning at 10:30 a. m.

CRICKET WEEK AUG. 21 to 27.  
Seven teams have already entered for the Pacific Coast Cricket Association's Tournament. The last two were Saanich C. C. of local fame and Burrard C. C. of Vancouver. There are five other teams which played in 1910 to hear from—Nanaimo, Vancouver, Kootenay, Portland and Seattle and possibly some new ones. Five grounds are this year at the disposal of the committee, Jubilee Hospital, Beacon Hill, Work Point, University School, and Esquimalt. Of these two are open to the public free of charge, University School and Beacon Hill. Strange to say the attendance is greater at the grounds where a gate is taken than where admittance is free.

The Victoria team to play at Portland left this afternoon on the Princess Adelaide. Its members are: F. J. Marshall, V. C. C. (captain), F. A. Sparks, V. C. C., Rev. H. A. Collinson, V. C. C., W. F. L. Pilkington, all of Victoria C. C.; Lieuts. Morrell, Halfax and Moore, Navy C. C.; Q. M. S. Roberson, Garrison C. C.; F. W. Ashby and H. O. Kirkham, Albion C. C., and H. A. Goward, Victoria C. C.

F. SCHNOTER, VICTORIA, B.C.

## INTERNATIONAL RULE PROPOSED

WANT B. C. REGULATIONS  
FOR ROADS SAME AS U. S.

Meeting of Automobile Club  
Last Evening—Sign Posts  
to Be Set Up

That the adoption of an international road rule throughout America must come ultimately, as the confusion caused to visitors on either side of the line by the existing contrary rules is being brought more and more to the attention of the public, was conceded at the meeting of the Automobile Club last evening, and it was thought that a step in that direction at the present time might bring about the desired result some time in the future. Naturally the rule to be adopted would be the one in force throughout all the United States and the greater part of Canada, and which obliges the automobilist, teamster, bicyclist, or pedestrian to keep to the right side of the road and not the left, as is done in British Columbia and one of the maritime provinces.

It must be said that the stupendous nature of the task before them appalled even the most hardy of the members. Some put it down flatly as impossible, and proposed makeshifts to lessen the danger to motorists crossing from one side of the line to the other. It was suggested that the collector of customs be supplied with copies of the rules of the road, which he might order his men to furnish every visitor who came into the province from the States with an automobile. But this

it was declared, would not obviate the danger in the slightest. An American driver in British Columbia or a British Columbia driver in the United States might know the rules of the road so as to be able to say them backwards, and yet if, when going at a good clip, he sighted an approaching machine he would instinctively turn in the direction called for in his own country. A nasty result of this predominance of instinct over memory was seen in the accident at Centalla, Washington, not long ago, when an autoist from New Westminster crashed into an American car. Such accidents are happening and will continue to happen with increasing frequency both in the States near by and in this province unless a universal rule can be agreed upon, many of those at the meeting declared.

The members of the Automobile Club are by no means thinking of themselves alone in this matter, although being chiefly interested in that method of transportation, the advantages accruing to automobilism composed the greater part of the discussion. But at the same time it was admitted that it would be a great benefit to teamsters, bicyclists or pedestrians to know that, whichever side of the road they kept to, they will be safe, no matter whether the approaching machine was driven by a British Columbian or an American. This might appear an unimportant issue just at present, but the time was bound to come when the matter would have to be taken up seriously. To quote the automobilist: "There is nothing like getting an early start."

It must not be thought that the Automobile Club proposes engineering this enterprise itself. But the members are of the opinion that if the co-operation of all other autoists in the province and of the "Teamsters' Unions" can be secured they would be in a position to gradually force down the tremendous opposition which undoubtedly would be opposed to them.

The members had not the nerve to make an actual motion on an undertaking of this magnitude, but, thrilled by the thought that they might be the first to tread in an almost unexplored region, they took a very halting step forward. A letter was sent to the Vancouver Automobile Club asking what

it thought of the matter. If the Terminal City autoists pay no attention to the query the chances are the project will be dropped until a few more accidents occur.

The Automobile Club intends having sign posts along the highway from Victoria to the northern part of the Island as soon as possible. The road, which it is intended to call the Island Highway, extends only as far as Campbell river at the present time, but will be continued in the near future to the most northern part of the Island. The club is supplying the sign posts, which are of a very neat design with "Island Highway" written across them, while the government will set them up at the required points along the road. Parliament Square was proposed as the place for the first one.

It was decided to secure from the Wilson Brass Foundry, Vancouver, 100 aluminum cross bars in the shape of a wheel surrounding a maple leaf and with "Victoria Automobile Association" engraved upon them. These will be sold to the members of the club and are to be attached to the radiators of the automobiles. This plan has already been followed out by the Vancouver and other coast clubs.

President John A. Turner was appointed to represent the club at the Pacific Highway meeting at Portland on August 4 and 5. Several other members will also, in all probability, attend.

A club run will be held on August 12, the motorists going from here to Dunsmuir, thence to Shawinigan Lake for lunch and will then scatter to go where they wish.

The secretary, J. A. Hinton, reported that J. Kline, manager of the McLaughlin-Buick Motor Company, of Regina, was on his way to the coast from Winnipeg, attempting to win the medal offered by the Victoria Automobile Association for the first autoist to drive in a motor car from Winnipeg to the coast. One of the McLaughlins and two other passengers are with Mr. Kline.

## SPORT NOTES

According to President Charles W. Murphy of the Chicago Cubs, Frank L. Chance, manager of the team, will never don a uniform again unless he does so in order to go on the coaching line. Murphy said yesterday that Victor Saer, hereafter would be seen at first base and that Chance would do the dictating from the bench. Chance has been struck on the head nearly forty times since he took up the game, and it is said the last blow caused his retirement as a ball-player-manager.

Russell Blackburne, the \$11,000 shortstop of the Chicago American League baseball team, who has been out of the game since early in the spring, following a surgical operation on his knee cap, has recovered and will join his team in a few days.

Although the official entries for this year's National American rowing championships will not be announced until Saturday, it became known yesterday that there will be a large delegation of Canadian oarsmen on hand for the events at Saratoga Springs, N. Y., on Friday and Saturday next. The big event, the championship eight, will have the following starters: Duluth, Winnipeg, Detroit, New York, and Argonauts of Toronto. The amateur sculling championship will bring out Lou Scholes, the Hanley winner; J. F. O'Neill, the title holder; Butler of the Argonauts, and others.

Billy Papke, the leading claimant for the middleweight crown, who recently returned to New York from a long trip through Europe and Australia, will return to New York from his home in Kewanee, Ill., in a few days and go into training for his bout with "Sailor Burke" at the 20th Century Athletic Club on August 8. After the match with the sailor, Papke will try to secure a return engagement with Cyclone Johnny Thompson, who won a decision over him in Australia.

Farland of Chicago, signed articles last night for a ten round bout in Milwaukee on September 2. It was agreed that they should meet in a contest for twenty rounds or more in California, sometime before the first of the year. McFarland has agreed to accept \$10,000 as his share of the proceeds in the Pacific Coast contest.

The lacrosse team to leave for New Westminster to-night, was chosen last evening as follows: "Boss" Johnson, goal; Frank Sweeney, point; Joe Dakers, cover point; Stiles, second defence; Okell, second defence; Brynjolfsen, third defence; McFarther, center; Pettigrew, third home; Caras, second home; McDonald, first home; Clute, outside home; McGregor, inside home.

The standing of the Northwestern League team is:

Team	W.	L.	Pct.
Vancouver	58	37	.610
Spokane	56	38	.598
Tacoma	52	42	.553
Seattle	46	46	.500
Portland	46	46	.500
Victoria	23	71	.244

OAK BAY WIN.  
Twelve From Suburb Look Like Champions—Westa Strengthening.

It looks like the Oak Bays for the intermediate lacrosse championship. In last evening's game at the North Ward park the Wests hadn't a chance and went down to defeat by a score of 10 to 2.

Cedric Touhy was the outstanding man on the winning team's line-up. He was credited with four goals and had the opposing defence worried from the start. Baker and McInnes scored two goals each while McDonald and Nason each bulged the net once. Brown and Williams, who scored for the losers, played a good game. The Wests intend to turn out in stronger force for the next match and will, at least, make it interesting for the Oak Bays. A number of the former Ward players intend joining them so that there may still be a little excitement in the struggle for the championship.

# WE INVITE THE ATTENTION OF HOME LOVERS TO OUR GREAT PRE-INVENTORY SALE

**CAN WE FURNISH YOUR HOME COMPLETE? MOST EMPHATICALLY, YES.**

**T**HIS vast showing of furnishings is unquestionably the most comprehensive ever assembled in one store in Western Canada. It includes every furnishing essential for the home. It represents the products of the best home manufacturers as well as the world-famed artisans of Europe. The needs of the simple cottage have been as carefully considered and provided for as the larger and more elaborate homes. Here are some suggestions for several of the numerous lines contributing to this big showing of furnishings.

## A WINDOW DISPLAY

You must not fail to see our showroom windows where we are displaying a model of a Dining room and Bedroom.

The furniture of the Bedroom is made of oak, waxed finish, while that of the Dining room is oak in the bright finish.

The bed is of brass with a handsome lace bedspread. Altogether the two rooms are well worth seeing.

## SILVERWARE DEPARTMENT

Are you one of the many visitors to our Silverware department? We have many pleased customers every day and would like to make you one. We have many articles of interest, such as

FERN DISHES from \$10 to.....**\$2.50**  
BERRY DISHES from \$10 to.....**\$4.00**

## MISSION SHIP OF PACIFIC ARRIVES

### MONTEAGLE BRINGS MANY MISSIONARIES BACK HOME

Liner Has Big List of Passengers—Makes Quick Trip Despite Adverse Weather

Living up to her reputation of being the missionary boat of the Pacific, the M. S. Montezuma, Capt. Davidson, arrived at the Outer Docks shortly before noon today bringing a large number of the missionaries of the American Board of Christian Missions from the Orient. Many of the missionaries scattered throughout China and Japan, are on furlough and will visit their homes in different parts of Canada.

Ever since the Montezuma was brought around the Horn from Montreal she has been a great favorite amongst the missionaries who travel to and from the Far East. She has never made a passage across the Pacific without carrying a number of missionaries either to their field of operations or bringing them home for a holiday. As a result the Montezuma has gained for herself the name of the "Mission Ship of the Pacific."

Capt. Davidson, commander of the Montezuma, states that they had a fair passage across from Yokohama. Considerable dirty weather was experienced during the trip, but opportunity was given at various intervals for the passengers to indulge in deck sports. The Montezuma has made a quick voyage from Yokohama, arriving here one day in advance of her schedule.

Half a million dollars worth of silk was stowed in the strong room aboard the ship. It consisted of 718 bales of raw silk, 44 bales of pongee, and 55 bales of piece goods. As freight the steamship had 3,300 tons and discharged 150 tons here before proceeding to Vancouver. The cargo included the regular items of marine curios, porcelain, soy, and general merchandise.

Among the passengers who arrived on the Montezuma were: Capt. E. S. Crowe, Rev. D. H. Davies, Mrs. Middleton, Miss Middleton, Miss M. Duncan and Miss Hart. Thirty-seven second and 271 steerage passengers also came across.

## MONSTER BUSH FIRE AT NORTH OF ISLAND

Venture Brings Word That Large Area is Being Devastated—Mary in Port

As the Boscowitz steamer Venture, Capt. Morehouse, which arrived in port last evening from northern British Columbia points, was entering Seymour Narrows on her southbound trip the passengers sighted an immense forest fire on Vancouver Island. It appeared to cover many square miles and the flames threw a lurid glare into the sky. Every person on the vessel watched the great blaze until the steamer had sped past. As the fire was burning so rapidly it is expected that many acres of timber will be devastated.

Many passengers came south on the Venture and she also had a big cargo of freight, including principally furs. She had an unusual large shipment of salmon, 3,000 cases and 400 tierces. A large portion of this will be loaded by the Blue Funnel liner Proteus, Capt. Campbell, which will sail shortly for Liverpool via the Far East. Most of the passengers on the Venture left the ship at last night for the north.

Another steamer arrived in port last night from the north, the C. P. R. steamer Princess Mary, Capt. Neruot, after an uneventful passage. The steamer Mary, after passing the Seymour Narrows the Mary sighted the American vessel and after a short time overtook her. The Mary then dropped

## OLD MARINER BRINGS VENTURE BACK AGAIN

Capt. Warren, the Veteran of Coast, Takes Steamer North for One Trip

When the Boscowitz steamer Venture arrived in port last night from northern British Columbia points, Capt. J. J. Warren, one of the founders of the company, completed another trip as master of the ship. He took command of the vessel at Vancouver when she was northbound on her last trip, owing to the illness of Capt. Morehouse. The regular skipper of the Venture has recovered and took his vessel out last night.

Capt. Warren is one of the old captains on the coast. After making fortunes for the owners of various vessels he commanded in the old sailing days.

## PASSENGER AGENT'S VIEWS OF BIG NORTH

Chas. Earle, of G. T. P., Says They're Boosting in Stewart and Improving in Rupert

There is no place in the Dominion where the boosting spirit is seen to better advantage than at Portland Canal, where the little town of Stewart, and probably no city in Canada of its size that is carrying on so much improvement work as Prince Rupert, according to Charles Earle, assistant passenger agent of the Grand Trunk Pacific, who has just returned from a trip to the north on one of the company's steamers.

The feature which impressed Mr. Earle the most was the progressiveness of the citizens of the Portland Canal town. Although it has only a small

NEW VIEW OF PRINCE RUPERT HARBOR

when his chief amusement was the making of Alaskan ports under the guns of an old Russian battleship, he ran the original company's liner Bonanza to northern points. There were no other like this vessel on the coast, she was a schooner originally, and before she was put on the northern route, her masts were shaved and steam was inserted somewhere in the stern of her, so that she looked as if the machinery had been dropped in the hull and had hit in the "wrong place." Notwithstanding her unlovely appearance she made a big fortune for her owners, being at one time the only vessel on the run, and having been lost, was found again in time to pile up more gold for her new owners. Twenty years ago all the traffic between this port and the far north was done by this steamer.

Such a boat did Captain Warren command for many years, and after she disappeared for the last time he ran regularly what the first Venture, which was burned six or seven years ago. He had the honor of taking this new Venture on her maiden trip to Prince Rupert a year ago, and has often made the passage to help out other captains. It is said that no man knows the waters of the coast better than Captain J. J. Warren, who like many another early adventurer on the northwest coast, hails originally from the Maritime Provinces. He is a native of the smaller province, Prince Edward Island.

—Meat sales, \$2.50 at the Capital Furniture Co.'s Mid-summer Sale.

population everyone feels that it is the only place in the world and are hoping for all they are worth. There are no knoockers in Stewart and if there were any they must have had a torchlight parade and burned them. The residents extend to visitors the glad hand and are quite willing to inform their guests that within a few years' time if they pay another visit to the northern town they will not be able to recognize it.

Work in converting the site chosen for the town of Prince Rupert into a modern city is proceeding apace. Mr. Earle says that although its population is not much more than 5,000 it already shows the lines of a metropolis. The grading of the streets and the erecting of several modern buildings has given the city a fine appearance. It will not be long before these two towns, according to Mr. Earle, have doubled their populations.

The scenery of the coast also impressed the travelling passenger agent, who was on his first trip to the north. The small streams falling from dizzy heights and dashing on stones, throwing their spray in every direction, were things which will live in the mind of Mr. Earle and he also took pains to secure several good photographs of them.

### UMATILLA ARRIVES

Brings Many Passengers North From San Francisco to Victoria.

Many passengers arrived last night from San Francisco on the Pacific

AT METLAKATLA INDIAN VILLAGE

The officers mingled with the group of American tourists are: Capt. Barney Johnson, "Prince Rupert," to the right; A. E. McMaster, agent of the G. T. P., at Prince Rupert, in the center; Captain Donald, pilot, on the left. This picture and that above were taken by Charles Earle, assistant city passenger agent of the G. T. P., while north a few days ago.

### MARINE NOTES

Bound for West Coast points as far north as Hatteras, the C. P. R. steamer Tees, Capt. Gilliam, left port last night. She carried many passengers and also had a fair cargo of freight.

The British steamer Knight of St. George, which is at Tacoma loading 800,000 feet of lumber and a large shipment of machinery for Australia, shifted from the Northern Pacific dock on Wednesday to the Milwaukee dock to finish her machinery cargo. She will leave port Saturday for San Francisco, where she will complete her cargo for the Antipodes.

The barkentine Jane L. Stanford arrived yesterday at Aberdeen, Wash., from San Francisco, and will load at the Anderson and Mitchell dock for the west coast. The schooner Borealis is loading at the Union Mill and will be ready for sailing late today. She is destined for Honolulu.

A representative of the contractors who are selling the German ship Preussen states that it is not intended to bring the Preussen into Dover in two pieces. The contractors are now commencing to strip the vessel and will in course of time make a thorough examination and test in order to decide whether it will be practicable to attempt to refloat the hull and then beach her again in the Downs to make her fit to take home some port. Under any circumstances it is thought that no attempt to refloat will be made this summer.

—Read J. N. Harvey's ad., page 3.

The population of the world averages 1.5 women to every 100 men. Eight-ninths of the sudden deaths are those of males.

## SHOOT FOR LIEUT. GOVERNOR'S TROPHY

FIRST STAGE AT  
RICHMOND RANGE

R. M. Blain, Vancouver, Defeats Regt. Sergt. McDougall in Shooting Off the Tie

Vancouver, July 21.—With the wind interfering somewhat in the accuracy of the shots, the marksmen at the Richmond rifle ranges yesterday did not make the top notch scores registered on the opening day. The first stage of the fight for the Lieutenant-Governor's trophy was pulled off with R. M. Blain of the Vancouver Rifle Association snatching first place. Regimental Sergt. R. M. McDougall of the Fifth Regiment, Victoria, tied Blain, but in a five-shot match, getting 22 points to the Vancouver man's score of 23 points. There were over 100 marksmen contesting for this much-coveted prize and just 64 can qualify for the second stage, which takes place to-day.

Following are the scores in the first stage, 200, 300 and 400 yards, of the Lieutenant-Governor's match:  
B. C. R. A. medal, R. M. Blain, V. R. A.; 22; R. M. McDougall, 5th Regt., 20; Lieut. Col. G. E. Lockie, 2nd Regt., 18; Sergt. G. S. Carr, 5th Regt., 17; Capt. J. Quine, V. R. A., 16; Sergt. J. W. Clark, 102nd Regt., 15; Col. Sergt. J. Moscrop, 6th Regt., 14; E. English, Victoria, 13; Sergt. L. W. Farran, 5th Regt., 12; Dr. Hall, Victoria, 11; Sergt. McPherson, Armstrong, 9; Sergt. M. Doyle, 5th Regt., 8; Arm. Sergt. Youhill, 6th Regt., 7; Capt. J. Schlatter, 6th Regt., 6; C. S. M. J. Caven, 5th Regt., 5; Priv. C. W. Duncan, 5th Regt., 4; Sergt. C. W. Birch, 5th Regt., 3; Lieut. D. A. McIntosh, 5th Regt., 2; Allan Brooks, Vernon, 1; J. R. Conway, Kelowna, 1; C. A. Bloomfield, Kelowna, 1; Corp. Geo. McKenzie, Armstrong, 1; Sergt. S. H. De Carteret, 5th Regt., 1; Lieut. Corp. J. Lee, 6th Regt., 1; Capt. W. E. Forest, 6th Regt., 1; J. E. Christie, V. R. A., 1; Gr. T. Edmond, 5th Regt., 1; Sergt. C. J. Pothergill, 6th Regt., 1; T. Chamberlain, Westminster, 1; Corp. A. R. Harness, 5th Regt., 1; Sergt. W. R. Smith, 5th Regt., 1; G. R. Joynt, Agassiz, 1; Q. M. S. Lettice, 5th Regt., 1; F. A. Quigley, V. R. A., 1; Capt. A. Graham, 6th Regt., 1; J. T. Mutrie, Vernon, 1; Gr. W. Wine, 5th Regt., 1; O. Smith, Esquimalt, 1; Q. M. S. Askey, R. C. G. A., 1; Col. Sergt. R. P. Latta, 6th Regt., 1.

## SOLDIERS NOW ON DUTY AT CARDIFF

Many Persons Injured in Strike Riots—Streets Strewn With Wreckage

Cardiff, Wales, July 21.—Five hundred Lancashire Fusiliers arrived here to-day and occupied the buildings in the dock district.

There was rioting by the shipping strikers throughout the night. The streets were strewn with wreckage and the hospitals are filled with victims of mob violence.

Efforts are being made to open negotiations between the shipping men and the strikers, in the hope of reaching a settlement.

## ALL EYES ARE TURNED ON CANADA

John Hendry Says Dominion Occupies Prominent Position Abroad

Montreal, July 21.—John Hendry, vice-president of the Western Canada Power Company and one of the multi-millionaires of British Columbia, arrived in the city to-day, returning from an extensive trip to Great Britain and the Continent. He discussed business matters with Sir Edward Clouston the greater part of the morning.

Interviewed, he declared that on his voyage abroad he has discovered that Canada occupied a far more important position than ever in the eyes of the world, especially in the eyes of the financial world.

## TRIES TO END HER LIFE

Newark, N. J., July 21.—Mrs. Jennie Garvey, who lay ill of a nervous disorder, asked her trained nurse last night to put her hand exactly over her heart. The nurse did so and departed.

the weapon, and begged him to shoot again and kill her.

The husband summoned a doctor, who said she will recover.

## Use the GILLETTE With the Angle Stroke

Jack-knife—draw-knife—plane—scythe—lawn-mower—all edge tools cut cleanest and easiest with the angle stroke.

The angle stroke was the only thing that made the old open-blade razor possible—except as an instrument of torture.

Yet many men use the GILLETTE like a hoe and expect it to cut clean and easy. The superb quality of its cutting edge is proved by the fact that even when used in this way the GILLETTE gives a good shave.

But to get the real satisfaction which the GILLETTE is capable of giving you, you naturally must use the angle stroke. Then you will know and appreciate the genuine luxury of the clean, cool, comfortable, easy three-minute GILLETTE shave.

Buy a GILLETTE and enjoy it—if you haven't one already. If you have one now, use it right and enjoy it to the full.

Standard Sets \$5.00 — Pocket Editions \$5.00 to \$6.00.

## POLITICAL HISTORY OF R. L. BORDEN

### Erratic Course of Party Leader Who Started Life as Ardent Liberal

(Halifax Chronicle)

Everybody in Nova Scotia knows that Mr. Borden was born and bred in the Liberal faith. In fact, the one thing which the people of Nova Scotia do not know is why he turned to political coat. Even the exact date on which the conversion occurred is not known. All that is known is that he blossomed out over-night into a full-blown Conservative, and accepted the Conservative nomination to the City of Halifax. It is known, however, that he had taken a prominent part in a Liberal demonstration which was accorded to Mr. Borden and Sir Wilfrid Laurier in his native county of Kings. For many years thereafter, he was a stalwart member of the Young Men's Liberal Club, of Halifax, which was a militant champion of the policy of reciprocity. At that time a much larger measure of reciprocity was on the tapis than at present. And it is not recorded that Mr. Borden ever raised his voice against it or conjured up any of the nightmares which now obsess him. In fact, so far as the public knows, he was a most loyal and faithful supporter of the Liberal party. We must suppose that he had "convictions" then. How he dispensed of his "convictions" so as to enable him to line up on the Conservative side we do not pretend to say.

Again, in 1897, Mr. Borden joined with his leader, Sir Charles Tupper, in denouncing the Fielding tariff as an instrument which would accomplish the ruin of Canadian industries. It must be assumed that he had "convictions" on that question too. Yet, to-day, in the West, we find him bearing eloquent testimony to the "magnificent prosperity" and "unexampled progress" which have resulted from the operation of that same Fielding tariff. So enamored is he of its success that he is fairly pleading with the farmers of the West to drop the idea of getting a larger market for their products and to "let well enough alone."

his speeches all over the country, and that was that he denounced the contract which the Government had made for the construction of the Transcontinental as most ruinous and disastrous. To-day, what do we find? Is Mr. Borden in his peregrinations through the West, denouncing the building of the National Transcontinental and telling the people of that great country that they are oppressed with a burden from which they can never escape, by reason of its construction? By no means. Mr. Borden is not saying a word about the National Transcontinental, and in that he is showing his wisdom. The policy of the Government on this question has been completely vindicated. Most people in Canada to-day recognize that the Government was right, and Mr. Borden, by his silence on that question, is bearing testimony to the best testimony that could be adduced to the wisdom of the Government's policy.

Let us turn next to the establishment of the Canadian navy. When the question of a Canadian contribution to Imperial naval defence was raised in the House of Commons in March, 1909, Mr. Borden made a speech in which he strongly endorsed the building of a Canadian navy as the best and wisest policy, both in the interests of Canada and in the interests of the mother country. He joined with the prime minister in framing the resolution which was unanimously endorsed by the House of Commons. He went over to London, and at a great banquet on Dominion Day, 1909, strongly and eloquently upheld the position which Canada had taken. He returned to Canada, and in the City of Halifax, in the most explicit and direct way, advocated the Canadian navy policy. He went up to Ottawa and reaffirmed his stand there, as he did subsequently in Toronto.

A few months later, he changed front suddenly and violently, and came out flat-footed against the Canadian navy, which he had endorsed so strongly and so repeatedly, and favored sending a contribution of twenty-five million dollars of Canadian money, to be spent by the admiralty in England. Mr. Borden has never yet ventured to tell us what he did with his "convictions" on that question. And so, when Mr. Borden tells the grain-growers of the West that he would not sacrifice his "convictions" if they promised to make him prime minister of Canada, most people may be pardoned if they are a little sceptical. We are not going to say that Mr. Borden does not mean to be sincere. But he is terribly anxious to become premier, and perhaps more than any other leader which either political party has had, he is a creature of circumstances. He changed his front on the navy question at the dictation of the Manitoba bosses, and if the Hon. Robert Rogers, who is now director-general of the strategy bureau, should find it expedient to come out in favor of a larger measure of reciprocity than the government has obtained, Mr. Borden might come to the conclusion that "convictions" were of no more importance than they were in the case of the Canadian navy. But whether this contingency arises

or not, it can be said, in all fairness, and in no discourtesy, that in the facility with which he can change his opinions at the drop of the hat, Mr. Borden stands quite alone in Canadian politics. We should be sorry to see the grain-growers of the West take him at his word.

### REVISED NATIONAL ANTHEM. King Has Approved Change in Text of Nation's Song.

A change has been made in the National Anthem. In these days, when the main thought throughout the civilized world is peace, one of the verses of the anthem is said to have struck the King as sounding a somewhat discordant note. It runs:

"O Lord our God  
Scatter his enemies  
And make them fall;  
Confound their politics;  
Frustrate their knavish tricks;  
On Him our hopes we fix,  
O save us all."

That verse has now been replaced by the following, written by Dean Hole, and breathing a more peaceful spirit:

"O Lord our God arise,  
Scatter his enemies  
Make wars to cease;  
Keep us from plague and death,  
Turn Thou our woes to mirth,  
And over all the earth  
There be peace."

### HEAD FLATTENING INDIANS. Peculiar Customs of Tribes of Lower Mississippi Valley.

The language, customs and manners of the Indian tribes of the Lower Mississippi valley and adjacent coast of the Gulf of Mexico are graphically described in a bulletin just issued by the Bureau of American Ethnology of the Smithsonian Institution, which was compiled and edited by Dr. John R. Swanton.

The work is a classic on the Natchez tribe, one of the largest on the Lower Mississippi. The Natchez cut their hair so as to leave a crown, after the style affected by the Capuchins, with only enough long hairs to permit the making of a twisted tress that hung like an ornament over the left ear. In the middle of the crown they left about two dozen hairs for the attachment of feathers.

an animal. One extremity of this board has a hole where the head is placed, and it is lower than the rest. The infant being laid down naked, she pushes back its head into this hole and applies to it on the forehead and under the head a mass of clay, which she binds with all her strength between the two little boards. The infant cries and turns completely black, and the strain it is made to suffer is such that a white fluid is seen to come from its nose and ears at the time when the mother presses on its forehead. It sleeps this way every night until its skull has taken on the shape which custom wishes it to receive.

The Natchez made their knives ordinarily of a rather small variety of case. This was split into four pieces, each of which formed a knife that cut very well for a little while.

Feather work was one of the things in which the Natchez attained a high degree of skill. With the thread obtained from the bark of the bass tree they made themselves a kind of mantle, which they covered with the finest swan feathers, fastened on the cloth one by one, a long piece of work in truth, but they accounted their pains and time as nothing when they wanted to satisfy themselves.

The Natchez were just as great gamblers as the other tribes of their race. A bowl game was played, in which a rolling bowl was sent spinning specially prepared for the game, the gamblers throwing poles 15 or 16 feet long after

it. When the bowl ceased rolling the Indian whose stick was nearest to it was the winner. After all it was really an embryo roulette game.

Marriage was a serious matter for the bridegroom. He had to make a regular Christmaslike procession of gifts to the relatives of the bride, even to the sisters, cousins and aunts. But he became the possessor of the bride, dominated and controlled her body and soul. The wisdom of the Natchez was further illustrated in the recognition of the mother, who was at once released from the hardest of toil. Additions to the household in the way of wives simply depended on the ability of the husband to pay the price and the number of relatives possessed by the bride-to-be.

The chief of the nation was known as the Great Sun, and his relatives, as Little Sun. The Great Sun was as absolute as a king. His people did not come near him through respect.

Ceremonies attending the funeral of a Sun were so numerous, so striking and so sanguinary that nearly all of the authorities have confined their descriptions to them, leaving much in the dark regarding the disposition of the bodies of the common people. Instances are reported where the death of a chief cost in sacrifice the lives of more than a hundred persons.

The Natchez held their temple in great respect. The men who passed by it would lay down what they carried and extend their arms towards

the temple with loud howlings. If they had small children they would take them up in their arms, and turning to the temple, make them touch the ground three times with the forehead.

### HONORING THE AVIATOR

Bogus Airman Dupes Simple Borough Out of Much Money.

A Captain Koepnick of the air duped the people of Calais recently.

A young man in leather overalls presented himself to the military authorities recently and introduced himself as the airman Legagneux. He wished, he said, to inspect the ground from which the aeroplanes were to start for the race to London.

He explained that he had left his aeroplane at Tourcoing, and that he intended

to go for it in a motor car and return through the air to Calais.

Troops were ordered out to ring the ground. A number of officials and air enthusiasts gave the supposed Legagneux a luncheon. During the luncheon he mentioned that he had lost his pocket book as he was grounding at Tourcoing, and he borrowed a considerable sum of money from everybody at table. Then he went back to inspect the grounds, and he has not been seen since.

A huge crowd waited to see "Legagneux" fly into Calais, and it was not until a telegram was received from the real Legagneux that the people of Calais—many of whom had been up all night—realized that they had been duped.

The average speed of the transmission of earthquake shocks is about 16,000 feet a second.

Pollock, 551; May Lingyip, 550; and Percy Walls, 550.

**Central (Second Division)—Four candidates, one passed:** Lorne McKenzie, 642.

**Dawson (First Division)—Twenty-eight candidates, passed twenty-one:** Frank Charley, 704; James R. McLeann, 696; Kathleen D. Burney, 679; Edgar Cranston, 677; Rena V. A. Grant, 658; Eva A. Vance, 657; Stanley Allen, 650; Gertrude C. Botger, 647; MCL. Ewart Hurst, 641; Florence M. McNeill, 624; Kathleen L. Lach, 617; Sarah B. Forsythe, 612; Beatrice A. Chadwick, 607; Olive J. Miller, 607; Alfred Willot, 591; Miriam C. Wolfe, 585; Herbert H. Borthwick, 581; Lyla Brunndert, 563; Stanley W. Taylor, 559; Carl C. Behnson, 553; and Norman V. Hughes, 550.

**Dawson (Second Division)—Thirty candidates, twenty-two passed:** Genevieve MacIn, 650; George C. Brown, 649; Helen E. Rose, 648; William O. Banfield, 642; Merle K. Scott, 629; John H. Bechtel, 624; Hedley A. Rose, 621; May R. McMillan, 608; John Borthwick, 599; J. Hilda Forbes, 599; Frank Behnson, 597; Gerald Plant, 594; Alex. A. Barnwell, 587; Gertrude Sheagreen, 586; Thora Aconley, 584; Jessie H. McGowan, 568; Madeline Wilson, 560; Ernest A. Cranston, 555; Carlisle R. Forrest, 550; Dorothy M. Joyce, 550; Harold Ledwell, 550; and Sidney M. Sykes, 550.

**Dawson (Third Division)—Eight candidates, three passed:** Richard E. Jones, 597; Montague L. Mount, 585; and Dorotha B. Bolton, 574.

**Fairview—Thirty-nine candidates, thirty passed:** Bessie Watson, 807; Ethel Dimock, 787; Francis J. A.

Shaw, 684; Douglas Black, 675; Waldo Bush, 675; Lena Bodie, 658; Harold Cline, 648; Bertha Newman, 644; Ward de Beck, 638; Kathleen Thompson, 634; Margaret Booker, 627; Kathleen Carson, 627; Wilfred Aske, 625; Teresa Easthope, 610; Madge Groves, 608; Willie Edward, 607; Rowland M. Schou, 606; Lewis Coray, 600; Elva E. Elliott, 598; Lillian M. Boyd, 593; Mabel Walden, 592; Susie England, 585; Harry Greatrex, 584; James Kelley, 583; Roy Gardner, 575; Jessie Wright, 573; H. William Macey, 612; Bert Bell, 565; Lincoln Meyer, 557; and Gustave Meyer, 550.

**Grandview—Twenty-three candidates, twenty-two passed:** Alice Rowntree, 757; Theodore Berry, 751; Percy Barr, 750; Orville Kirby, 671; Alfred Hain, 659; Victor Canyow, 652; Violet Walsh, 650; Mabel McKinnon, 648; Ivy Pressey, 641; Joseph Seidelmann, 636; Clara Riestler, 630; James Boyes, 621; Vera Mould, 621; Clifford Ferguson, 620; Armour Jeff, 619; Osborne J. Orr, 606; Howard Odium, 601; Katie Urquhart, 601; G. Leslie Farrer, 587; Harry Canyow, 574; Ewart Evans, 577; and Melrose McQuiddan, 572.

**Hastings—Three candidates, all passed:** Albert R. Near, 576; Agnes C. Vollum, 553; and Doris M. Church, 550.

**Kitsilano—Thirty-four candidates, passed seventeen:** Phoebe Horne, 738; Verne Sharpe, 716; John Maclean, 696; Florence A. Buck, 627; Donald MacArthur, 626; May Palmer, 608; Gordon C. Castelman, 597; Percy Hanafin, 592; Roy H. Eitershan, 588; Wilfrid McCreery, 575; Dorothy Purvis, 568; Mabel Free, 566; A. Douglas Hill, 561; Margaret Fisher, 560; Alfred Chaitwin, 550; Jean Goodie, 550; and Edmund Smith, 550.

**Macdonald—Seventeen candidates, passed eight:** Vera M. Giberson, 640; Allan G. McIntosh, 627; Arthur L. Hourston, 619; Clara L. Witherspoon, 614; Hugh G. Stroyan, 586; Eva E. Findlay, 582; Erwin J. Mueller, 572; and Alma L. Bowman, 571.

**Model—Forty-six candidates, passed thirty-five:** Fred Downs, 802; Sadie Heron, 757; Gordon Budd, 728; Edythe Bundy, 723; James O'Loane, 698; Clarence Frederickson, 695; Jack Huggert, 685; Elsie Hatt, 676; Mona Macdonald, 668; Harold Killam, 659; Hazel Hatt, 659; Robert Turley, 650; James McIntosh, 628; Bessie McKenzie, 613; Lorne Morgan, 628; Lillian Kennedy, 628; Wilbur Foley, 630; Osborne Richardson, 616; Edwin H. Winram, 614; Carl Ross, 601; Ethel Gowanlock, 600; Dorothy Buck, 599; Wanda Cooke, 593; Kenneth Murray, 592; Harold McIntosh, 591; Harry E. Smith, 588; Louise Buchanan, 577; Eva M. Match, 575; Ethel Routley, 570; Keith McAllister, 570; George McAdam, 567; Loren Foley, 551; J. Gordon Pearson, 550; Cecil Skelding, 550; and Thomas P. Woodward, 550.

**Mount Pleasant—Thirty-five candidates, passed thirty-two—First division:** Jennette Cyr, 729; Walter Macdonald, 719; Mary Lewis, 710; Fern Howard, 685; Margaret Williams, 684; Gilbert Abbott, 682; Isabel Bruce, 683; Elsie Horton, 680; Ruby Rogers, 671; Hazel West, 665; Reginald Godson, 662; Gertrude Jones, 659; Stella McKenzie, 652; Richard Graham, 642; Verne MacArthur, 640; Ernest Baxter, 639; McCarty, 638; Florence Muscov, 638; Doris Milten, 632; Verne Bingham, 630; Olga Miller, 625; Mamie Ols, 612; James Colbourne, 607; Mary Croston, 594; Eva Miller, 590; Elmo Wilkinson, 590; Jessie Grant, 587; Harry Grant, 584; Lillian Kor, 574; Willis Raymer, 561; Irene Wilkinson, 557; and Edward Livingston, 550.

**Mount Pleasant—Second division:** Twenty-two candidates, passed fourteen: Ruth Luno, 702; Clyde Jones, 676; William Cyr, 632; Elsie M. Jack, 621; Fannie Dockendorff, 617; Earle Lord, 603; Ethel Livingstone, 592; Mona Weston, 587; Hugh Kernishan, 584; Edna Carter, 570; Jean Johnstone, 562; Janet Bruce, 559; Fred Baxter, 559; and Burwell Brown, 557.

**Lord Roberts—(First division)—Thirty-two candidates, passed twenty-nine:** Charles Smith, 748; Wilfrid Mathers, 707; Randolph Davidson, 705; Edward Emmons, 696; Hazel Wilband, 696; Thomas Stewart, 678; Willis O'Brien, 672; Edith Laiton, 671; Marjorie McRae, 671; Bonnie Clement, 659; Irene McManus, 659; Harry B. Lehmann, 652; Donald Morrison, 645; Edith Simpson, 644; Edith Smith, 644; Vera A. Chastaney, 635; Muriel Neill, 634; Gwendolyn York, 634; Ruth Stewart, 629; Henrietta Pilon, 623; Frank Rusteed, 617; Theodore Doucet, 606; J.

## If You Invest \$10 Now You Net \$25 Profit in Few Days--Safe Sound Business Proposition

The caption on this advertising announcement is a summary of our offer to you if you invest \$10 cash to-day.

You take no chance, but you have an absolute guarantee that your investment will increase in value \$25.00 in less than one month.

Briefly, the proposition is: The British Pacific Coal Company have placed in the market a limited block of stock at 50c a share. This issue will be taken-up in a few days' time, when the next issue will be put upon the market at 75c or \$1 a share. The trustee guarantees that the price will be at least 75c a share. This means a profit of 25c per share.

To buy 100 shares, your cash payment is but \$10.00. The balance is spread over a period of three months.

The British Pacific Coal Company control 8,320 acres of coal land, 80 miles from Prince Rupert, and fronting on Skidegate Inlet, Graham Island.

The property is being opened up. Thousands of dollars have been spent, and Engineer Alexander Faulds says that in six months' time the coal may be shipped to local markets. This means early dividends.

There are six seams of coal on the property. One engineer estimates that there are at least 36,000,000 tons of anthracite coal, carrying 83 per cent fixed carbon, or about twice the heat values of ordinary bituminous coal.

It costs no more to mine anthracite coal than bituminous yet the profit is double, and the anthracite coal operator naturally controls the fuel market, since he can place his output upon the market at the same cost of production, at the same freight rate, and sell at the same price, and make money. The British Pacific Coal Company control practically the only workable body of an-

thratic coal in Canada outside the anthracite coal in the maritime provinces.

Anthracite coal from Pennsylvania carries 83 per cent to 90 per cent fixed carbon, and is almost identical in heat producing value as is the coal from the mines of The British Pacific Coal Company. Anthracite coal from Pennsylvania is worth from \$16.00 to \$22.00 per ton on the Pacific Coast, while bituminous coal brings but \$8.00 a ton. It can readily be seen, therefore, that anthracite coal will control the fuel market.

The completion of The Grand Trunk Pacific railway to Prince Rupert, the Pacific terminus of this great transcontinental line, must naturally open up a market for fuel as great as any on the Pacific Coast.

The British Pacific Coal Company must control this market since they will have their own coast shipping line direct communication by water. Hence no tie-up for cars, nor excess of freight rates, since the company will likely own its own boats.

The hundreds of shareholders in The British Pacific Coal Company resident in the coast towns will buy in the immediate market the output of the mine. They will be the consumers, and will benefit by being shareholders inasmuch as the profits will come to them—they will actually mine their own coal.

Do not overlook the fact that only a few years ago the Crow's Nest Pass Company's shares were selling at 10c. To-day they are worth \$38.00. That is, 100 shares to-day are worth \$38,000. Yet a few years ago they went begging at 10c, or \$10 a hundred. Similar instances occur in the coal mines of Vancouver Island. They have made enormous profits for the shareholders.

The British Pacific Coal Company is offered by men of integrity, men of standing,

men who have made good. The Trustee, T. R. Morrow, is well and favorably known. His position and relation to the company's business assures the shareholders of a proper and true account of all moneys received for the sale of shares.

The limited number of shares to be offered at 75c will practically close the sale of stock, and you may expect to see the shares advance with wonderful rapidity, since the property will then be well proven up, and have a standing with the producing coal mines of Canada.

Already several flattering offers have been received for the property which prices would pay all moneys invested by the shareholders, as well as a profit of at least 40 per cent.

It has been decided, however, not to sell the property, but rather to develop it and make it a shipping coal mine.

Those who are desirous of acquiring an interest in this property at 50 per cent of the par value of the shares should lose no time, and direct their application to the trustee. It is only a matter of days now until the price is 75c. Therefore by investing \$10.00 cash payment on 100 shares, the profit will be \$25.00 in a few days' time. The balance of the purchase price will be spread over a period of three months.

Shrewd, far-seeing business men are buying now twice the quantity of shares they intend to hold permanently with a view to selling out when the price is advanced to \$1 in a few weeks. Hence this will give them the remaining half of their holding absolutely free of cost to themselves.

The British Pacific Coal Company is a working coal mine, not a prospect. Engineer Faulds says he can ship coal into the local market in six months' time. If you are a shareholder, you will naturally be a consumer. Therefore you are practically mining your own coal.

Address your applications and make your cheques Payable to the order of T. R. MORROW, whose office is situated at 604 Broughton Street, Victoria, B. C.

**BLOODSAL**

**DEVONSHIRE'S POULTRY SALTS**

Based on a formula of the late chief, the Chemistry Division, Agricultural Department, Transvaal, Mr. Luke Pither, the well known authority, writes: "I entertain no doubt that to insure abundant vitality in the eggs used for hatching—especially artificial hatching—your salts are of great value—if not indeed a necessity to all poultrymen in British Columbia."

**BLOODSAL**

**Devonshire's Cattle, Sheep, Horse and Dog Salts**

These salts contain no noxious drugs; are quite harmless and merely insure a sufficient supply of the mineral ash to the animal.

Mr. H. T. Oldfield, Prospect Lake, writes: "I have found the salts most beneficial in their effect upon my three foals. I shall never be without them in future."

**MINER KILLED**

**IN JOSIE MINE**  
Another Seriously Injured—  
Believed to Have Drilled  
Into Missed Hole

Roseland, July 20.—A fatality occurred at the Josie mine, belonging to the Le Roi No. 2 company, when two men, John Beckman and Alex. Byers, were caught in a powder blast. Beckman, from the nature of his injuries, must have been killed almost instantly. His face was blown to pieces and a large hole torn in his head. His body was also badly battered.

Byers was badly injured about the face, one of eyes being in a serious condition that his removal to a Spokane hospital was deemed advisable. It is not known yet how the accident occurred, but the presumption is that he drilled into a missed hole.

**DIED OF HEART FAILURE**

Vancouver, July 20.—A man named John Johnston was found dead in bed in his room at the Beaver House, 201 Carrall street. Johnston was a young Scotchman and has been out here for some time. During the last two months he had not been working, but up to that time he had been employed in a drug store. The coroner was notified, but it is said that the man died of a natural death from heart failure, and it is improbable that an inquest will be held. The young man has a mother living in Edinburgh, and she has been notified of the death of her son.

**OLD CANNERY BURNED**

New Westminster, July 20.—The old wharf and cannery building at Queensborough, Lulu Island, has been destroyed by fire. A launch was also totally destroyed. When it was discovered that there was no chance of saving the building the efforts of the firemen were directed to adjoining buildings occupied by foreigners. Fortunately a light wind was blowing in the opposite direction to the houses, otherwise the blaze would have been more serious.

**Defeat That Summer Tired Feeling**

There is no reason why you should not feel just as brisk and vigorous in the summer as at any other time. Yet most people do not and they believe that it is just the natural effect of warm weather. It is not. It is because the digestion is weak and the system has been allowed to run down and no effort made to keep it in good running order. When the hot weather comes be very careful what you eat so as not to upset your stomach and take

**Duffy's Pure Malt Whiskey**

It is a gentle and invigorating stimulant and tonic that influences for good every important organ of the body and brings restful sleep. It is a form of food already digested, and when taken just before a meal stimulates the mucous surfaces and little glands of the stomach to a healthy action, causing a sufficient flow of the gastric juice to digest the food, and it promotes perfect assimilation. It also promotes the flow of saliva for the digestion of starchy food, preventing fermentation in the stomach and bowels.

All liquor dealers, or direct, \$1.50 large bottle. Medical booklet, and for advice text free on request.

**NEW AUDITOR FOR**

**NEW WESTMINSTER**  
Sydney Malcomson of Royal  
City Elected at Meeting  
of Council

New Westminster, July 20.—Sydney Malcomson of Pine street, was appointed city auditor at the regular meeting of the city council. Several applications were considered, including one from Moses B. Cotworth and A. V. Kenah of Vancouver. There was considerable discussion, but after the ballot was taken it was found that Mr. Malcomson, two for Mr. Cotworth and one for Mr. Kenah.

A communication was received from Mayor Morley of Victoria, asking the co-operation of New Westminster in securing several amendments to the municipal act. It was pointed out that the act was compiled when the cities in this province were small, and that the act was not practicable in the larger cities, with the result that special charters were necessary. A committee composed of Mayor Lee, the city solicitor and the chairman of the legislative committee from each council of Vancouver, Victoria and this city will inquire further into the matter and see what can be done. There is no legislative committee in the New Westminster council, and a third delegate will be appointed.

A letter from the manager of the Rising Sun Realist Japanese cherry trees, lay out a garden according to the Japanese style of architecture and also build a tea room of 35 by 50 feet in a section of Queen's park. The letter contained the information that Admiral Togo would visit the province next month, and it was the intention of the writer to invite him to plant a memorial tree. Ald. Gray moved that the application be refused, and was backed up by Ald. Lynch and Campbell. An amendment was made to refer the application to the parks committee to report, and this was finally decided on.

**MOSQUITOES KILL BABY**

Abbotsford, July 20.—A plague of mosquitoes is now afflicting this town and surrounding district. Fortunately, it is known that it can only last a few days and that the height of it is now in all likelihood past. The death of one baby is already attributed to them, and the death of several cattle and a couple of horses. On Saturday night a minstrel company started a performance in the town hall, but had to close down on account of the swarms of mosquitoes that filled the building.

**HAD NARROW ESCAPES**

Lytton, July 20.—Two men narrowly escaped being killed in Lytton station. One was trying to cross a trolley in front of the train and rolled on to the trolley. He was, however, thrown clear. Another fell in front of the moving engine and, but for the engineers' presence of mind, he must have been crushed.

**BRICK PLANT PROJECTED**

Ladysmith, July 20.—The farm owned by Ed. Pannell at Blaney's Crossing has been sold to a syndicate for \$11,000, it being the object of the syndicate to erect a \$50,000 brick plant on the premises. There are good clay deposits on the property, and the promoters look forward to a profitable industry.

Don't forget the 4th annual regatta at Shawnigan Lake, Koon's Station, August 6. Over \$400 in prizes.

**CITY OF VICTORIA**

A complete list of Local Improvement Works, authorized by By-Law, from time to time, will be found posted on the Bulletin Board at the main entrance to the City Hall.

**PUBLIC NOTICE** is hereby given that the Corporation of the City of Victoria has deposited with the Minister of Public Works a plan and description of certain properties which the Corporation proposes, after the expiration of thirty (30) days from the date of the first publication of this notice in the "Canada Gazette," to make application to purchase, under the provisions of act of Canada, and has deposited a duplicate of the said plan and description in the office of the City Engineer and City Assessor, at the City Hall, Victoria, British Columbia.

The lands for which such application to purchase will be made are described as follows:

All and singular that certain parcel or tract of lands situate, lying and being contained in a portion of "The Arm," Victoria Harbor, known as "The Creek," and which may be more particularly described as follows, that is to say:

Commencing at a point on the western limit of Bridge street, in the City of Victoria, and proceeding in a southerly direction, distant one hundred and seventeen (177) feet from its intersection with the northern limit of David street, the said point being at high water mark, thence north thirteen degrees and seventeen minutes (N. 13 deg. 17 min.) west ninety-one and one-half (91 1/2) feet, thence north forty-eight degrees and forty-two minutes (N. 48 deg. 42 min.) east (three and nine-tenths (3 9/10) feet, thence north one hundred and five (105) feet, thence north four degrees and two minutes (N. 4 deg. 2 min.) west (one hundred and two (102) feet, thence north one and two-tenths (1 2/10) feet, thence north nineteen degrees and fifty-nine minutes (N. 19 deg. 59 min.) east (thirty and three-tenths (30 3/10) feet, thence north ten degrees and fifty-five minutes (N. 10 deg. 55 min.) west (fifty (50) feet, thence north thirty-four minutes (N. 34 min.) west (one hundred (100) feet, thence north fifty-five degrees and one minute (N. 55 deg. 1 min.) west (one hundred (100) feet, thence north twenty-two degrees and thirty minutes (N. 22 deg. 30 min.) east (thirty and five-tenths (30 5/10) feet, thence north five degrees and three minutes (N. 5 deg. 3 min.) east (thirty (30) feet, thence north thirty-four minutes (N. 34 min.) west (one hundred (100) feet, thence north one and two-tenths (1 2/10) feet, thence north nineteen degrees and fifty-nine minutes (N. 19 deg. 59 min.) east (thirty and three-tenths (30 3/10) feet, thence north ten degrees and fifty-five minutes (N. 10 deg. 55 min.) west (fifty (50) feet, thence north thirty-four minutes (N. 34 min.) west (one hundred (100) feet, thence north fifty-five degrees and one minute (N. 55 deg. 1 min.) west (one hundred (100) feet, thence north twenty-two degrees and thirty minutes (N. 22 deg. 30 min.) east (thirty and five-tenths (30 5/10) feet, thence north five degrees and three minutes (N. 5 deg. 3 min.) east (thirty (30) feet, thence north thirty-four minutes (N. 34 min.) west (one hundred (100) feet, thence north one and two-tenths (1 2/10) feet, thence north nineteen degrees and fifty-nine minutes (N. 19 deg. 59 min.) east (thirty and three-tenths (30 3/10) feet, thence north ten degrees and fifty-five minutes (N. 10 deg. 55 min.) west (fifty (50) feet, thence north thirty-four minutes (N. 34 min.) west (one hundred (100) feet, thence north fifty-five degrees and one minute (N. 55 deg. 1 min.) west (one hundred (100) feet, thence north twenty-two degrees and thirty minutes (N. 22 deg. 30 min.) east (thirty and five-tenths (30 5/10) feet, thence north five degrees and three minutes (N. 5 deg. 3 min.) east (thirty (30) feet, thence north thirty-four minutes (N. 34 min.) west (one hundred (100) feet, thence north one and two-tenths (1 2/10) feet, thence north nineteen degrees and fifty-nine minutes (N. 19 deg. 59 min.) east (thirty and three-tenths (30 3/10) feet, thence north ten degrees and fifty-five minutes (N. 10 deg. 55 min.) west (fifty (50) feet, thence north thirty-four minutes (N. 34 min.) west (one hundred (100) feet, thence north fifty-five degrees and one minute (N. 55 deg. 1 min.) west (one hundred (100) feet, thence north twenty-two degrees and thirty minutes (N. 22 deg. 30 min.) east (thirty and five-tenths (30 5/10) feet, thence north five degrees and three minutes (N. 5 deg. 3 min.) east (thirty (30) feet, thence north thirty-four minutes (N. 34 min.) west (one hundred (100) feet, thence north one and two-tenths (1 2/10) feet, thence north nineteen degrees and fifty-nine minutes (N. 19 deg. 59 min.) east (thirty and three-tenths (30 3/10) feet, thence north ten degrees and fifty-five minutes (N. 10 deg. 55 min.) west (fifty (50) feet, thence north thirty-four minutes (N. 34 min.) west (one hundred (100) feet, thence north fifty-five degrees and one minute (N. 55 deg. 1 min.) west (one hundred (100) feet, thence north twenty-two degrees and thirty minutes (N. 22 deg. 30 min.) east (thirty and five-tenths (30 5/10) feet, thence north five degrees and three minutes (N. 5 deg. 3 min.) east (thirty (30) feet, thence north thirty-four minutes (N. 34 min.) west (one hundred (100) feet, thence north one and two-tenths (1 2/10) feet, thence north nineteen degrees and fifty-nine minutes (N. 19 deg. 59 min.) east (thirty and ### GROCERS' PICNIC

About forty grocers were present at  
last night's meeting in K. of P. hall,  
which was held to choose new working  
committees to arrange for the 1911  
grocers' picnic. A committee was  
formed and will have entire control of  
preparations for the event. It was de-  
cided to hold the outing this year at  
Goldstream, about the middle of Au-  
gust, and no efforts will be spared to  
make the affair a success.

The following officers were chosen:  
Pres., E. J. Wall; vice-president, J. D.  
Jay; treasurer, S. Kirkham; secretary,  
Vincent Gray. The general committee  
is composed of the following: H. O.  
Kirkham, E. G. Bailey, F. Fox, A.  
Thornton, W. Hillier, T. Williams, W.  
Jeffries, S. J. Heald, S. White, S. J.  
Moody, H. Johnston, Thos. Lee, V.  
Crawford, A. McNeill, W. Hermon, J.  
E. Renouf, W. Tait, A. Poole, H.  
Schroeder, E. Smith, F. Purdy, P. G.  
Cudlip, R. D. Strachan, R. Toner, W.  
Gordon, S. Woods, J. Finerty, H. Har-  
rison, A. J. Sparks, W. Walton, A.  
Dillworth, W. B. Hall, J. P. Young.

### FOR FALLING HAIR

You Run No Risk When You Use  
This Remedy.

We promise you that, if your hair is  
falling out, and you have not let it go  
too far, you can repair the damage  
already done by using Rexall "32" Hair  
Tonic, with persistence and regu-  
larity, for a reasonable length of time.  
It is a scientific, cleansing antiseptic  
mercurial preparation, that destroys  
microbes, stimulates good circulation  
around the hair roots, promotes hair  
nourishment, removes dandruff and  
restores hair health. It is as pleasant  
to use as pure water, and it is delicate-  
ly perfumed. It is a real toilet neces-  
sity.

We want you to try Rexall "32" Hair  
Tonic with our promise that it will  
cost you nothing unless you are per-  
fectly satisfied with its use. It comes  
in two sizes, prices, 50c. and \$1.00. Re-  
member, you can obtain Rexall Rem-  
edies in this community only at our  
store—The Rexall Store, D. E. Camp-  
bell, corner Fort street and Douglas  
street.

## ROBS ANESTHESIA OF ITS TERRORS

Scientist Finds Method of Ad-  
ministering Ether Without  
Nauseating After Effects

Two little gas bags, attached to a  
simple contrivance have robbed ether  
of its sickening terrors—and its dan-  
gers.

The discovery of the anaesthetic  
value of ether was hailed as a wonder-  
ful boon to humanity 60 years ago, but  
it remained a boon of bitter memory to  
all who took it.

The old way of giving ether is to  
pour it on a sponge, over the patient's  
nose. He is half asphyxiated and when  
he comes to himself he is so sick that  
he's sorry he ever came to at all. Then  
follow terrible hours of nausea and  
thirst. The victim must have water,  
because water induces vomiting and  
that sometimes bursts out stitches.  
Sometimes the patient never does come  
to. The new way eliminates ether-sick-  
ness and the danger of asphyxia. It  
makes ether as safe as laughing gas  
and as pleasant, without entailing the  
enormous expense involved in using  
that anesthetic for long operations.

Dr. John S. Pyle, a Toledo surgeon,  
is the inventor. He has been successful  
in many operations, major and minor, and  
its success has been fully demonstrated.  
Dr. Pyle's anesthetic is a "mixer"  
through which the patient can breathe  
air, vaporized ether (or chloroform),  
nitrous oxide (laughing gas), or oxy-  
gen, either singly or in any desired  
combination or proportion.

The apparatus consists of a glass  
globe, or mixing chamber, to which are  
connected three atomizers and two gas  
bags, and from the top of which pro-  
ceeds a rubber hose ending in a face  
mask equipped with valves. There is  
a cock for the admission of air to the  
mixing chamber. In two of the atom-  
izers is ether; in the other chloroform  
(for emergencies demanding that anes-  
thetic). In one of the gas bags is  
laughing gas; in the other pure oxy-  
gen. Layers of gauze in the mixing  
chamber ensure the perfect mixing of  
the gases.

Perfume is sprayed on a piece of  
gauze in the mask before it is strapped  
on the patient's face. He smells white  
roses. Presently the odorless laughing  
gas is turned into the globe. When  
that subtle anesthetic has done its  
work ether is substituted. The patient,  
already happily asleep, breathes the  
fumes of ether until the operation is  
over, and never knows the difference.  
Then he is given pure oxygen till the  
ether has been driven from his lungs.

The surgeon has the patient under  
perfect control. If he sees a sign of  
collapse, the anesthetic is cut off and  
oxygen substituted until the patient  
rallies. The use of oxygen after the  
operation restores normal circulation.  
The patient comes to himself pink and  
warm, instead of blue and cold.

This application of concentrated  
oxygen following ether or chloroform  
brings the patient out of his sleep free  
from the dreadful nausea so long the  
bugbear of surgery.  
Dr. Pyle won an international reputa-  
tion 20 years ago by devising a safe  
method of operating for the removal  
of the prostate gland.

### SITUATED ON COOK ST. NEAR HILLSIDE

This large, beautiful home commands a better view of Victoria, the Straits and the  
Mountains than any house in the city. It is well built and finished with many large, bright,  
airy rooms, including seven bedrooms, large double drawing room, kitchen, butler's and ser-  
vant's quarters, etc., etc. The grounds are planted with many varieties of shrubs and  
trees. We could say much more about this beautiful place, but you must see it yourself to  
appreciate the bargain you are getting. The fact that a car line will soon run close to the  
property greatly enhances its value from an investment standpoint. It would make an  
ideal home or is large enough for a rooming house or a sanitarium. You cannot beat it in  
Victoria.

INCLUDED WITH THE HOUSE IS THREE LOTS, MAKING A TOTAL OF 151x267 FT.

## The Evening Chit-Chat

By Ruth Cameron

In a recent novel, Elizabeth, the young heroine, in a moment of insane anger with the man she is engaged to, and really loves, strikes a man for whom she cares nothing.

Of her state of mind afterwards the author writes:

"She would fall to thinking with that the tremendous catastrophe was out of all proportion to its cause. It was monstrous that a crazy moment should ruin a whole life—two whole lives—her's and David's. It was as if a pebble should deflect a river from its course and make it turn and overflow a landscape."

"Suddenly it seemed to her as she looked across the roaring gulf that separated her from the past that all her life had been just a sunny slope down to the edge of the gulf. All these 'harmless' tempers which had had no results had pushed her to this result. It is not the pebble that turns the current. It is the easy slope that invites it. All her life—Elizabeth had been inviting this moment—just as some of us are to-day—inviting baleful to-morrow. When we shall look back from the depths of these to-morrows and see what we have done, then will we call on the mountains to fall on us and the hills to cover us."

I quote these paragraphs because I think they contain a lesson that more people need than will read the novel. There are no isolated wrong deeds.

There are no wrong deeds without consequences. We give way to temper, we tell a lie, we fail a friend, we are cruel or mean or impure in any way and perhaps nothing happens.

And we think we are fortunate because there are no consequences to our acts.

But we are wrong.

There are always consequences.

You think perhaps I mean merely the effect upon the character, and you think you do not need to worry about such vague spiritual consequences as long as there are no material ones. I do mean that, but I mean much more than that. Every act you do affects your character and ultimately your character affects your life. Just as surely as you get the spiritual results you will also get the material consequences.

In another passage in this wonderful novel the author says of Elizabeth:

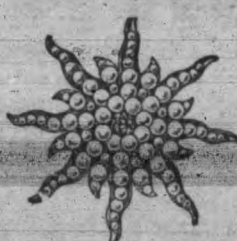

"She gaped at the realization—which comes to most of us human creatures sooner or later—that sins may be forgiven, but consequences are eternal."

That is something we all fail to realize until we have to. We are slow to appreciate that although our yielding to this and that and the other small temptation brings no perceptible consequences, it is slowly but surely paving the way for some larger yielding that shall bring life-changing consequences.

The only way you can escape the consequences for weak and wicked acts is to neutralize them by good and strong acts.

You cannot prevent the acid from

Ruth Cameron

## SOCIAL AND PERSONAL

Mrs. Frank Stackpole is the guest of Mrs. W. D. Holthouse, Winnipeg.

Miss Cutler, San Francisco, is the guest of Mrs. Charles H. R. Slingsby, Esquimalt.

Miss Robinson and Miss Keast are visiting Mr. and Mrs. Hubert Keast at "Ilalhee," Cowichan Lake.

Hon. David Laird, Ottawa, and his niece, Mrs. H. C. Shaw, Vancouver, have returned to that city.

Mr. and Mrs. Charles Rhodes have returned from Honolulu, where they have been spending a holiday.

Mrs. E. B. McKay, 617 Douglas Gardens, will not receive next Wednesday nor again during the summer.

William Alexander, Sheffield, the millionaire silversmith, is paying his first visit to Victoria. He has many investments here and in Vancouver.

Dr. Bryant, house surgeon at St.

Joseph's hospital, has returned from Quebec, where he temporarily had charge of the new general hospital.

Mrs. John Matheson, wife of the leader of the Opposition in the P. E. I. legislature, spent yesterday with friends. Mrs. Musgrave and Mrs. Tucker, at Duncan, and left last night for Vancouver.

Mr. Alfred Hayward and Miss Allee Maude Keefe were united in matrimony last evening at the Metropolitan Methodist parsonage by the Rev. T. E. Holling. Mr. A. Haggart supported the groom, and Miss Annie Keefe attended the bride.

J. H. McIlree, I. S. O., former assistant commissioner of the R. N. W. M. P., and Mrs. and Miss McIlree, have come to reside in Victoria at 424 Skinner street, Victoria West. Mr. McIlree joined the Northwest Mounted Police when that fine body was first formed in September, 1873.

Miss Gladys Spencer, daughter of Chris Spencer, and pupil of Miss Ethel Lawson, has won the advance grade gold medal for violin at the examinations of the Associated Board of the Royal College of Music, London, England. This medal is given to the candidate taking the highest marks over 135 out of a possible 150 in the advanced grade. In Canada, for any instrument, over one thousand candidates entered for the Associated Board examinations this year in Canada.

Hon. Dr. Young, minister of education, was the host at dinner last evening at the Empress, the guests being the school inspectors of the province and others who have been conducting entrance examinations and correcting the papers here for the past few weeks. Besides Superintendent Dr. Alexander Robinson there were present: Inspectors D. Wilson, Gillis, Dean, Leith, Sullivan, Pollock, McLaren, Miller and Duncanson. Principal William Burns, Mr. Murphy of the Normal School staff, Messrs. Keller, Brough, Dunning, Fraser and Pemberton, of the High Schools, and P. DeNoe Walker, chief clerk in the provincial secretary's department.

Mrs. Charles H. R. Slingsby, Glen Cottage, Esquimalt, was hostess yesterday afternoon at a smart bridge tea. The tea room and reception rooms were beautifully decorated with sweet peas. Among the guests were: Mrs. Griffiths, Mrs. Scott, Mrs. Matheson, Mrs. Matthews, Mrs. Pooley, Mrs. Rhodes, Mrs. Foulkes, Mrs. Scott, Salt Spring Island; Mrs. Macallum, Mrs. Rismuller, Mrs. Spratt, Mrs. Rea, Mrs. Bechtel, Mrs. Harvey, Mrs. Hardie, Mrs. Roberts, Mrs. Boreasford-Hogg, Mrs. S. Hughes, Miss Cutler, San Francisco. The prize winners were: First prize, silver frame, Mrs. Rismuller; second prize, solid silver hatpin stand, Mrs. Macallum; consolation prize, water-color painting, Mrs. Rea.

## PASSING SHOW

Empress Theatre.

The Berrens, performing in a cultivated musical act at the Empress, are offering music of a very high order. They are graduates of the Paris Conservatoire de Musique and have studied under the best foreign masters. They have introduced a surprise in the act and show as a feature one of the most beautiful and deceptive examples of the art of "stage up."

An act of the best foreign kind is shown by the Makarenko duo of Russian dancers, appearing in Russian and gypsy costumes and singing Russian folk songs. The act is a hit. The Graphophone girl is Miss Adeline Francis, who sings duets with herself, Bob Weston and Ed Dwyer succeed in making college boy stunts interesting and amusing. As barrel-bouncers and gymnasts Robinson and La Favor are clever and do some good grotesque gymnastics. The Grandiscope pictures close an excellent bill.

Wild Animals in Captivity.  
Among the many animals seen in the film shown at the Majestic for the week-end are the following: Moose, elk, yak, elephant, zebra, camels, buffaloes, lions, tigers, leopards, sea lions, birds, fowls, reptiles, monkeys, etc. It shows the animals and birds the fish and the sea lions in all their different moves. It also shows the ferocious demonstrations of the lions, tigers, bears and other wild beasts during feeding hour. Every part of the Zoo has been faithfully reproduced from the ring-tailed monkey and the talking parrot to the big herd of buffaloes.

Other films are "The Crooked Road" biography, "Avenge" drama, "Her Uncle's Will" one thousand feet, comedy, all at the Majestic theatre to-day and Saturday.

## CALLS AMERICANS CHILDISH

The Countess Von Bylandt, who is in New York, has these claims upon public attention in the United States. She is a Countess, she is divorced, and she smokes fifty or sixty cigarettes a day. She says the American people have silly notions. An American woman may have three husbands and your dear public does not mind; but she dare not publicly take the cigarettes. Another notion that strikes the lady as silly is the way American women treat their divorced husbands. She says: "I have been visiting some friends of mine in Rye. While I was there I met a woman who is divorced. At an affair given at one of the club-houses this woman discovered that her divorced husband was also there. What did she do? Did she greet him with kindness and courtesy, as one should greet one's divorced husband? Not at all. She cut him and she left the club-house. How—well, how positively quaint."

"Shall I tell you what I do when I meet my divorced husband? 'Ah, my dear friend,' I exclaim, 'come and let us have a bit of supper together, as in the old days; or shall it be a cigarette?'"

"Fancy not speaking to a man whose wife you had once been! How ridiculous! To pretend not to know a man, when not more than a month or two

A fresh mind keeps the body fresh. Take in the ideas of the day, drain off those of yesterday. As to the morrow, time enough to consider it when it comes to-day. —Bulwer Lytton.

## FUNNEL HANGS ON BOTTLE.

Attachment Fastens It to Neck and Prevents Tipping.

A man living out in the wine-making district of California has invented an attachment which holds a funnel to the neck of a bottle and thereby facilitates the pouring of liquid from that bottle into another. A little projection near the top of the funnel has a clamp attached to it and the clamp engages the bottle neck. With this device there is no need of holding the funnel to make sure that it does not slip around in the second bottle and

spill some of the liquid. Furthermore, this arrangement makes the filling of a bottle much easier, as the funnel can be raised a trifle above the mouth of the receptacle, so as to admit air around the sides and thus facilitate the flow of liquid into it. Without the attachment it would be necessary to hold the funnel up with one hand and the supply bottle in the other, which is somewhat inconvenient, as the supply bottle is usually a large and heavy one.

## EXEMPLARY GIRAFFE.

Dr. Pohl, a distinguished Berlin scientist, talking on the science of eating at the Dresden exhibition, holds the giraffe up to mankind as an example. He has ascertained by observations in the Berlin Zoological Gardens that the giraffe averages 117 chews for each morsel of food he swallows. Dr. Pohl admits that it would be impossible for human beings to equal this record, but he thinks that we ought to endeavor to get something near it and this we should do if we followed the golden rule of eating. "Never cut off a second morsel of food until you have thoroughly masticated and swallowed the

## ROYALISTS ARE READY FOR ACTION

### INVASION OF PORTUGAL APPEARS IMMINENT

Large Force Has Gathered on the Frontier—Well Supplied With Arms

Lisbon, July 20.—(Via Badajoz, Spanish Frontier).—An invasion by Capt. Coureia, at the head of the royalist forces, appears imminent. All attention is now fixed on the north.

The Portuguese monarchists possess thousands of rifles of the latest pattern, smuggled into Galicia, Spain, from Germany and Belgium, and also many field guns and maxims.

The monarchists remain on the Spanish frontier, conspiring openly against the republic. Notwithstanding the assurance of the Spanish government that the royalists daily hold military drills and practice rifle shooting on the large private estates and among the hills of Galicia.

Under the monarchist regime all Portuguese regiments were kept far below their normal strength to save expense. The provisional government, however, called all recruits to the colors. These numbered about 22,000 and were more than were needed under arms. It was thought, and furthermore they entailed great expense. Accordingly all but 8,000 were dismissed, but are ordered to be in readiness to respond for service on twenty-four hours' notice.

Influential opinion is convinced that the Spanish government is secretly protecting the Portuguese plotters in Galicia, and the press has begun a bitter campaign against Spain, alleging bad faith.

The provisional government is anxious, and the newspapers are not permitted to publish anything sensational relating to the monarchist movement, and a close censorship is maintained over inland telegrams as well as on all wires leading to the outside.

### YUKON'S OUTPUT

#### WILL BE LARGE

(Continued from page 1.)

"The scare," said Commissioner Henderson, "undoubtedly hurt the business of Dawson. While every necessary precaution was carefully taken by the authorities to prevent the spread of the disease, at no time did the residents become alarmed over its spread. By the time the season is closed again, however, business will have resumed its normal run and will be but little the worse for the experience."

Mr. Henderson will retire from his position as commissioner of the Yukon territory, which he has held for the past four years, in December. He will probably be succeeded, according to his own statement, by Arthur Wilson, who since July 1 has been acting as administrator. The commissioner has words of high praise for the man who, he says, will take his place, declaring that he is well qualified and knows the territory, having lived there for the past twelve or thirteen years.

"In that time," said Mr. Henderson, "Mr. Wilson has become thoroughly informed in the matters pertaining to the north and its development. He has been a member of the Yukon council and was for many years chief licence inspector of the territory."

With Mr. Henderson on the trip down was Frederick T. Congdon, the Yukon member of parliament, who is as enthusiastic as ever over the great land to the north. Mr. Congdon left Vancouver yesterday for Ottawa. The commissioner, as soon as he retires from office, plans to resume in Vancouver or Victoria the practice of law. Mr. Henderson is the first of the Yukon commissioners to hold the position for four years, all of his predecessors having been in office for just half that time.

As he and his family were leaving the Royal Alexandra hotel for this city a committee of citizens of Dawson presented him with a service of plate and a moose hide beautifully decorated. On the skin was drawn the picture of the Church of England and the government house facing on a portion of Front street, Dawson. The hide, which was about five by six feet in dimensions, is an excellent example of what can be done in burned leather work.

### AMERICAN FRUIT BOXES

Must be Stamped "Short" When Offered for Sale

Calgary, July 21.—All American fruit boxes exhibited for sale in Calgary must in the future be stamped "Short." M. P. McNell, the Dominion Fruit Inspector, wired Ottawa this morning, and received the above instructions. In the past the British Columbia fruitgrowers have had no protection from American competition. According to the Dominion Act all Canadian strawberry boxes must have a capacity of four-fifths of an Imperial quart, and raspberry boxes must hold two-fifths of an Imperial quart. The imported American fruit boxes, although to all appearances of standard size, until placed alongside the British Columbia product, have false bottoms, and are in reality appreciably smaller in every dimension, and the consumer really receives less for his money than from the Canadian producer. Peddlars and dealers handling American fruit make no distinction between the two products, but call the American "short" boxes "quarts," as well as full size Canadian goods.

Pressers and Stands for \$11.35. The Capital Furniture Co., 1227 Douglas street.

## VALUE OF FARM LAND IN STATES

Increase of Over Fifteen Billion Dollars During Last Ten Years

Washington, D. C., July 21.—Of marked interest of all the statements during the Canadian reciprocity debate was the census bureau's announcement to-day of the latest general farm statistics of the United States, showing that land in farms more than doubled in value during the last ten years, having increased \$15,252,788,000 or 118 per cent. In 1900 they were valued at \$13,051,033,000 and returns of the census show they are now worth \$28,303,821,000.

Farm lands, farm buildings and implements of the country are valued at \$28,303,821,000, compared with \$17,357,455,000 ten years ago. The number of farms in 1910 was 6,340,120 as compared with 5,737,372 in 1900, an increase of 11 per cent. The land increased in 1900 from 835,072,000 acres to 873,703,000 in 1910 or 5 per cent, but a larger increase of 15 per cent is noted in improved acreage, which in 1900 was 414,490,000 acres and in 1910, was 477,424,000 acres.

More conspicuous than the increase in the number and acreage of farms has been the increase in values of farm property. The land in farms rose in value from \$13,051,033,000 in 1900 to \$28,303,821,000 in 1910, an increase of 118 per cent, and during the same period the average value per acre of all lands in farms rose from \$15.60 to \$32.50 or 18 per cent.

Farm buildings, which in 1900 were worth \$3,556,614,000 were reported in 1910 as worth \$6,294,025,000, an increase of 77 per cent. Farm implements and machinery reported in 1910 as worth \$1,261,870,000, and ten years previously as worth \$749,778,000, show an increase of 68 per cent.

## NO CHOLERA CASES ON ITALIAN STEAMER

All Arrivals From Mediterranean Must Undergo Examination at New York

New York, July 21.—The federal and state physicians and bacteriologists down the harbor guarding the country from an invasion of cholera, are encouraged by the fact that no cases of the disease have been found thus far among the latest arrivals from Italy. Twenty-four hours have elapsed since the steamer Principe Di Piemonte, from Genoa and Naples, entered quarantine, and the official report to-day says no further developments of the disease had appeared.

In preparation for more ships soon to arrive from the Mediterranean Health Officer Doty is increasing his force of experts, for under the latest government instructions, every arrival from Italy must undergo the bacteriological examination.

Dr. Doty to-day denied charges made at the state investigation of his administration that he had failed to report cases of cholera when they first appeared here.

"I want the people to know all about the cholera situation," he said.

## TURKISH TROUBLE PUZZLES EUROPE

Twenty Years of Peace Needed to Bring Order From Confusion

Turkey to-day is the puzzle of Europe. Albania is in revolt, yet the Sultan has been acclaimed by Albanians. The leaders of opinion are mostly free-thinkers, yet they are urging the enforcement of Mohammedan rites and ceremonies. The government has protested against an alleged desecration of a mosque in Palestine, while every day they are destroying and desecrating churches in Albania. They talk of freedom of opportunity, but the anti-foreign feeling is stronger than ever, and even progressive Turks find the administration so oppressive that they describe it as "Abdul Hamid multiplied by a thousand." Yet in spite of all this, there is no feeling of hopelessness.

Sir William Ramsay, a Scotch traveler who knows the country well, declares his conviction that it will "take twenty years of peace" for the Young Turks to succeed, "and as yet they have rarely had a month of real peace."

Personal ambition is hampering them more than disagreement on policy. The heads of the sections of the union and progress organization, in Constantinople, Salonika and Monastir, have axes to grind, and it takes pacifist states like Enver Bey all their time to adjust the machine and prevent stoppages of upheavals.

Graft is said to be as prevalent all over the country as ever. It is certainly a fact that native Christians, called up for three years' compulsory military service, can be things with their superior as to get off with three months' full service and then a few hours every day, provided "the men above" get \$250 to divide among themselves.

As to the anti-foreign feeling, the American mission doctors are finding it very troublesome wherever they try to operate in a new district, for boycott and open hostility pursue them till they have demonstrated their utility in cases of sickness and accidents. And even then the rancor dies hard. Insults, too, are thrown at the passing foreigners more frequently, but that is explainable by the greater freedom of speech that is now allowed.

Germans in Turkey look for great results from the month's tour that 50 influential Turkish politicians, naval and military officers, officials and professional men are just concluding in Germany. Field Marshal von der Goltz is their guide and counselor and the Kaiser himself is host and commercial drummer. Up to now the Germans say they have been hampered in the near east by the predominance of the French language. That they hope to alter.

The Jews complain that they are being misrepresented by the enemies of Zionism. They declare their Palestine movement is spiritual and they have no dreams of sovereignty. All they aim at is peace and liberty in the cradle of their race, and they point to the fact that the communists have set up in Palestine are open to Mohammedans and Christians as freely as to Hebrews.

Renewed incidents on the Greek frontier are a disturbing element, but no one now anticipates an early resort to arms in that direction. The German advisers of the army declare it is being gradually improved and the commanders in Albania and Arabia are eminently situated for their work.

Taken all around, the situation is full of internal dangers, but the Young Turks will weather them if personal ambitions can be made subservient to the common cause.

ALBERNI COAL MEASURES.

Engineer of Conservation Commission Examines Island Deposits.

W. J. Dick, mining engineer for the conservation commission of the Dominion of Canada, spent the week in and around Port Alberni making an examination of the coal indications. He also made a careful inspection of the coal showing that is now being developed on the waterfront a short distance south of the Waterhouse wharf.

The tunnel was in 35 feet when Mr. Dick made his examination, and he pronounced the coal to be a good quality suitable for steam purposes and house fuel. It was already of a marketable quality, while the quantity and the ease with which it could be taken out made it a paying proposition.

Mr. Dick's investigations led him to the conclusion that the seam on which the miners are working is only one of three, there being evidence of the existence of two others farther down, where a superior quality of coal would be found. He could only speculate on the distance of these seams from each other, but thought the second one might be struck within sixty feet. At any rate the indications would certainly warrant the operation of a diamond drill.

There was no doubt in Mr. Dick's mind but there is an enormous body of good coal under the townsite and land on either side and behind it. He estimated the area at eight square miles. Mr. Dick is a son of Archibald Dick who is directing the coal mining developments in Port Alberni. He is an authority of recognized merit, and has had a wide range of practical experience in the work of his profession. He has, in the course of preparation, a couple of instructive reports which will shortly be published by the conservation commission. Alberni Pioneer News.

FIRE DESTROYS GRANDSTAND.

Grand Rapids, Mich., July 20.—The grandstand at the race track of the West Michigan fair grounds was destroyed by fire yesterday. This is the track on which the grand circuit races were to have been held next week. This probably means that the grand circuit meeting will have to be postponed or called off altogether. The loss is estimated at \$80,000.

## LUMBER CAMPS

DESTROYED BY FIRE

Damage Estimated at \$500,000—Large Force of Men Fighting Flames

Vancouver, July 21.—Damage estimated at about \$500,000 has been caused by the forest fire at Squamish, according to advices brought by the government launch Skinner, which arrived in Vancouver from the scene of the conflagration Wednesday evening.

The timber belt through which the flames fought their way, it is stated by officials of the provincial timber inspector's office, is one of the finest in British Columbia. The fire, which is said to have originated near the limits of the Newport Company, has almost wiped the camps of the company out of existence, it is stated.

The Newport Timber Company possesses large holdings in the Squamish district and had over 120 men employed at the time the fire broke out. Since Monday last, when the outbreak was first reported, every man in the company's employ, together with a large force of fire wardens, has been fighting the flames in an effort to protect the timber still standing.

When the outbreak was found to be uncontrollable, the donkey engines used in the camps were buried in mud and left there, attention being turned to saving the horses and some of the lighter parts of the camp equipment. The stables and sheds, it is reported, have all been burned, as well as other outbuildings in the camps.

Wm. Stewart, men's and ladies' tailor, over Terry's Drug Store, Douglas Street.

## Cod Liver Oil With the Oil Taken Out

A Triumph for Chemical Science and Pharmaceutical Skill

Oil from the liver of the cod-fish has been used as a preventative of disease and a restorative for ages.

For a long time it has been the general opinion that the medicinal value of Cod Liver Oil was the greasy, oily part itself—its only drawback being the unpalatable, fishy taste of the oil.

From the first experts have been trying to find means to make it more palatable. They used to "cut" it with whiskey—take it in wine—flavor it with lemon juice—anything to get away from that abominable fishy taste and smell.

Lots of people still take it in Emulsion form, which is nothing more than "churned" oil—broken up—but still greasy, oily and a strain on the digestion. Doctors used to think it was the oil itself that built up the system—they were slow to find out that the oil was a distinct drawback to the medicinal principles contained in it.

Crude oil is quite indigestible, and will, in time, put the strongest stomach out of order.

A way has now been discovered to do away with the grease and the smell, and yet retain all the medicinal properties of the liver. This is done by removing the fresh oil from the new livers. The liver pulp is then reduced to the form of an extract like beef extract.

Nyal's Cod Liver Compound is simply this liver extract combined with an extract of malt and healing wild cherry. It also contains the true hypophosphites. This combination makes Nyal's Cod Liver Compound a delicious tonic—builds up the system, and makes you strong.

Take it when you feel yourself losing your grip. It's a pleasure to take—even the children like it.

Get a bottle to-day and ward off disease. \$1.00 for a large bottle. Your druggist will cheerfully recommend it because he knows all about it.

Sold and guaranteed by D. E. Campbell, John Cochrane, Dean & Hiscocks, F. W. Fawcett, Messrs. Hall & Co., W. Jackson & Co., F. J. Williams, Victoria.

## BIG FEES PAID TO PHYSICIANS

Royalty's Gratitude for Medical Services Foundation of Many Fortunes

Medical practitioners whose names are not on the register of the General Medical Council—there are some 40,000 names in all on the register—are deterred by law from suing for their fees, says a writer in the New York Times. The members of the Royal College of Physicians—of which Sir William Osler is a shining light—and also, I believe of the Royal College of Surgeons, are also precluded from suing for their fees—not, however, by law, but by professional etiquette; by the ethics of the organization to which they belong, violation of which is just as likely to lead to the removal of one's name from the Medical Register as any statutory offence.

That is why so many physicians in England—even the most eminent—confine their practice to a cash basis, and require payment for ordinary consultations at the close of each visit. The fee is invariably from one to two guineas—not pounds—and the coins are always done up in a piece of paper or in an envelope—a custom which, I believe, comes from China. There the fee is wrapped up in red paper on which are inscribed the words "Golden Thanks," notwithstanding that the amount seldom exceeds 70 cents.

It is only fair to add that a Chinese doctor is usually even highly paid at that. For his prescriptions, according to my own experience of thirty years ago, comprise the most repulsive substances, including snakeskins, moths, silkworms, and even animal and human secretions.

When I inform your readers that I have been prescribed for by a native physician in the interior of China, I beg them at the same time to believe that I refrained from taking any of his medicines, having less faith in his skill than in that old Chinese proverb, according to which the spilling of the medicine indicates speedy restoration to health.

The method in vogue in China and in England of handing to a physician his fee wrapped up in a piece of paper gives rise in London, at any rate, to a considerable amount of fraud on the part of patients, who, particularly in instances where they do not propose to return a second time, unhesitatingly substitute shilling pieces in lieu of gold sovereigns.

Certain physicians, notably Lord Lister and the late Sir William Jenner, Queen Victoria's favorite medical attendant, have been noted for their extraordinary skill in discovering by the relative weight of gold and silver whether patients were attempting to substitute coins of inferior value for the two sovereigns and two shillings makings up the two guineas, it being contrary to etiquette for the physician to open the paper containing the fee until after the patient had left the room.

Some great ladies in London, while they do not presume to substitute coins of inferior value for the sovereigns, make a point of omitting the concomitant two shilling bits, and Sir William Jenner used to be equally noted for his particularly strong objection to the absence of the shillings. On one occasion, having received from a well-known dowager duchess an envelope which he felt contained only two sovereigns he put on his eye-glasses, and, stooping down, began closely to inspect the floor.

"What have you lost, Sir William?" inquired the lady.  
"I am looking for the two shillings you dropped, Duchess," replied the great doctor. She promptly produced the shillings, and blushed of course to the roots of her hair. For it is a social axiom that the leaders of fashion always have natural roots to their hair, even when it is most palpably artificial.

Sir William was celebrated for his kindness to the poor, and I recall an old guinea piece which he wore on his watch chain, and attached to which there was a pleasant little story. One day he found among his patients in his consulting room a humble carpenter. On remarking to the man that his dinner had through neglect of treatment made great progress, he received the following reply:

"I have been waiting to see you for three years, sir."  
"Why, my man, couldn't you afford to come sooner?" queried the physician.  
"Oh, yes," answered the carpenter. "But I couldn't get a gold guinea piece anywhere." (None have been coined for more than three-quarters of a century.) "And I had heard that you would take nothing else."

Sir William from that time forth the guinea in question fastened to his watch chain. But though he cured the patient in the end, eight months, he never took a fee from the poor fellow, who had striven so hard to find this now rare coin, and who had waited so patiently to consult him.

Some of the largest fees received by physicians in the Old World have been those paid by royalty, and there are to-day in England and in the various Continental countries of Europe a large number of titled families who are indebted for the foundation of their fortunes to the gratitude of some monarch to their ancestors for medical services.

Empress Catherine of Russia, for instance, who was mortally afraid of smallpox, presented the English doctor Dimdale with a sum of \$70,000 in cash, \$10,000 for his travelling expenses, the dignity of a Count, and a life annuity of \$4,000 merely for having vaccinated her. His descendant, the Right Hon. Sir Joseph Dimdale, received a baronetcy for his services as Lord Mayor of London in 1901-1902. I can recall the

## EASY FORTUNE FOR THE GUILTY

Old Play of Confidence Game Revived in Modern Form—Letter to Victorian

Readers of the Times will remember that some years ago a systematic series of money leeching efforts was carried on under the plausible fraud of distraught noblemen in Europe. The fraudulent nature of communications sent has been frequently exposed but there apparently are a few of the gentle hierarchy of the pickpocket class still in prison in various parts of Europe.

Mr. Samuel Johns, of Strawberry Vale, has been in receipt of an undated communication postmarked Ectapeta, Spain, July 4, 1911, which shows that a new, modern and bloodless Black Hand system is again in operation. The letter which is reproduced in a well written and correctly spelled English communication and encloses the newspaper clipping. It is unnecessary to add that Mr. Johns has not yet replied.

Copy of Letter.  
Dear Sir, Although I know you only from good references of your honesty my sad situation compels me to reveal you an important affair in which you can procure a modest fortune, saving at the same time that of my darling daughter.

Before being imprisoned here I was established as a Banker in Russia, as you will see by the enclosed article about me, of many English newspapers which have published my arrest in London.

I beseech you to help me to obtain a sum of \$450,000 I have in America, and to come here to raise the seizure of my baggage, paying to the Registrar of the Court the expenses of my trial and recovery my portmanteau containing a secret pocket where I have hidden the document indispensable to recover the said sum.

As a reward I will give up to you the third part, viz., \$150,000. I cannot receive your answer in the prison but you must send a cablegram to a person of my confidence who will deliver it to me.

Awaiting your cable to instruct you in all my secret, I am, Sir, Yours truly,

SADROWSKY.  
First of all, answer by cable, not by letter, as follows:

ENRIQUE ROMERO,  
Calle del Pico 4,  
Valledolid (Spain).  
Alex. Johns.

The Enclosure.  
Arrest of a St. Petersburg Banker. Charged With Fraud in Russia and Manlaughter in Spain.

Interview of the two Ambassadors. Some months ago, as our readers may remember we referred in these columns to the great scandal caused, in St. Petersburg, and in Russia generally, by a noted and abandoned adventurer leaving a deficit of over five millions of rubles.

The Russian police sought for him for a long time in vain for it seems he had not left the least trace of his flight and the continued search over Europe and America proved unavailing. Yesterday, however, a Spanish Inspector accompanied by two officers from Scotland Yard and acting under instructions of the Spanish ambassador, who had previously interviewed the home secretary arrested him on his way from the hotel where he was staying, to the steamship office. It seems that it was his evident intention to take passage for New York. From information received by the ambassador, he had been in hiding in Spain, where he lived with a woman and with his daughter. A few days before arriving in London he had quarrelled with another Russian, who was mortally wounded by a revolver shot during the scuffle, and who only lived long enough to denounce his assailant.

In an interview with the Russian ambassador, it seems that the name he had been using in Spain, and which he gave on being arrested, was not his real one, Manassela being simply an alias, but after comparing the prisoner with photographs in his possession, the Russian ambassador recognized him as Alexander Sadrowsky the criminal banker who aloped with 5 millions of rubles; he is a native of St. Petersburg, a widower 45 years old, with an only daughter that he left in Spain on escaping from that country.

On being arrested, two of Manassela's or Alexander Sadrowsky portmanteaus were seized, but although strictly searched nothing but personal effects were found in them, in spite of which the Russian ambassador declared that prisoner ought to have several million rubles somewhere.

The Russian and Spanish ambassadors conferred yesterday evening as to whether the prisoner should be conveyed to Spain or to Russia, and after an interview with the home secretary, and in accordance with the extradition treaty of England, Russia and Spain, it was agreed that the prisoner should be conveyed to Spain, to stand his trial for manslaughter, and that only after his trial can the Russian government ask Spain through diplomatic channels, for his extradition.

veyed to Spain or to Russia, and after an interview with the home secretary, and in accordance with the extradition treaty of England, Russia and Spain, it was agreed that the prisoner should be conveyed to Spain, to stand his trial for manslaughter, and that only after his trial can the Russian government ask Spain through diplomatic channels, for his extradition.

## MANY WOUNDED IN STREET FIGHTING

Clashes Between Troops and Inhabitants of Town in Portugal

Lisbon, July 21.—Advices from Guimaraes state that severe conflicts have occurred there between the inhabitants and the troops. Order was restored only after serious fighting, during which many people were wounded.

When a detachment of the 20th regiment arrived at Guimaraes, where it had been sent as a precautionary measure to prevent outbreaks, the soldiers were greeted in a hostile manner by the people, who jammed the streets and cheered for the church and the monarchy.

Army officers, who tried to harangue the populace, were stoned by a mob and forced to seek shelter in the House of Governor Salgado, which was immediately surrounded and besieged until reinforcements arrived.

Captain Couciere, the Royalist leader, is reported as continuing his preparations for an invasion of the frontier.

Advices from Coimbra report street fighting as a result of counter demonstrations. Many persons were injured.

The minister of finance yesterday asked the Cortes for credits of \$1,500,000 for the national defence, and \$500,000 for the work of the foreign office.

## U. S. STEEL MONOPOLY

Washington, D. C., July 21.—The United States Steel Corporation, in obtaining the Tennessee Iron and Coal Company and its southern ore lands, "scooped" its monopoly of the ore of the American continent and tied up available fields for independent concerns, according to Chairman Stanley, of the House "Steel Trust" investigating committee, at yesterday's hearing.

Mr. Stanley said he had discovered from his own investigation that the United States Steel Corporation has a monopoly of coking coal, but, addressing his remarks particularly to Richard Indabury, counsel for the steel corporation, he said that if he could say the same of the ore and transportation facilities controlled by the "trust," he would frankly do so.

The committee ineffectually sought light from Herbert Knox Smith, commissioner of corporations, whose bureau has been investigating the steel corporation since 1908, and has made public only a part of its report.

The commissioner, standing on the Attorney-General's interpretation of the law that no information could be made public without the President's authorization, refused to give the committee facts collected in a report not yet completed, relating particularly to cost sheets furnished by the steel corporation. He said that when the report was ready he would urge the President to make it public as soon as possible.

## APPEAL FOR PROTECTION.

German Representatives Are Investigating Conditions in Mexico.

Berlin, July 21.—An appeal for protection was received today by the leaders of the National Liberal party from twenty-five German families of Orizaba, Mexico. Evidently ignorant of the fact that the Reichstag is not sitting, they asked that the government be interpolated regarding the murders. The government has taken no steps as yet, pending the conclusion of an investigation by its representatives in Mexico. It regards the position not only of the Germans, but of all foreigners in Mexico, as dangerous, on account of the strong anti-foreigner sentiment and the difficulties of the administration in coping with the former revolutionists and bandits.

San Antonio, July 21.—Foreigners arriving here from Mexico in large numbers report that a state of anarchy exists in Torreon and the state of Coahuila. They report the situation is critical and say they will remain here until some of the generals in power intervene.

—The plasterers and lathers of Victoria will hold their first annual picnic on the 22nd day of July, next at Goldstream, B. C. Trains leave at 8 a. m., returning at 4:55 p. m. Return fare 55 cents. Sports, etc., will be held in connection with same.

## WATER AT VALDEZ FALLING RAPIDLY

Number of Streets Flooded—Bridges Swept Away—Traffic at Standstill

Valdez, Alaska, July 21.—The unprecedented flood which swept down upon Valdez Wednesday began to abate late yesterday, and reports from upstream indicate that the water is falling rapidly. The suddenness with which the flood began to abate has given rise to the belief that the great volume of water came from a glacial lake which burst from its ice barrier when the hot wave struck southeastern Alaska on Sunday, melting the glacier with unusual rapidity.

Most streets in Valdez have water in them. A second break in the dyke permitted the ice cold water to find a channel through two blocks through the town. Log and brush jams forming in these streams backed the water about the buildings. Four blocks in the south end of town were inundated. The women in the houses were carried out on the backs of men and taken to hotels. All the stores in Valdez are closed, and the citizens, aided by Company I, Sixteenth Infantry, from Fort Lisicum, are protecting property.

Three bridges on the road to Fairbanks are gone, and overland travel is at a standstill. Company C, which left Fort Lisicum on a practice march on Monday, was marooned at Keystone Canyon by the washing out of a bridge. The soldiers repaired the damaged bridges and returned to their post yesterday.

Enormous floods caused by the bursting of glacial lakes are not unknown in Alaska. Two years ago the Teslin river rose eighteen feet in six hours as the result of such an outbreak, and last December a disastrous flood was caused in the Controller Bay country by the bursting of a lake in Behring glacier.

## BANKERS IN TROUBLE

Vancouver, Wash., July 21.—H. C. Phillips, registrar of the United States land office here and former president of the defunct Commercial Bank of Vancouver, and Gilbert W. Daniel, cashier of the institution, were arrested yesterday on a warrant issued from the district attorney's office, charging them with receiving deposits knowing the bank to be insolvent. The specific charge is accepting a deposit of \$50 made by W. M. Farwell, December 16, 1910.

The arrests are the result of the report made by experts who recently audited the bank's accounts and whose report was made public here June 15. According to the report, "every known principle of conservative banking has been violated in the manner of making loans."

## "GRAFF" CASE SETTLED.

Chicago, July 21.—What is said to be the final settlement of the Illinois Central Railroad "graft" cases, in which former officials were accused of defrauding the road out of \$1,000,000 in the repairing of cars, has been made. The company took over the West Pullman car works, one of the car repair shops in which the officials were accused of having swindled the railroad by charging for repairs never made.

Blawett Lee, general attorney for the road, said it surrendered its claim of approximately \$1,000,000 against the West Pullman car works, and gave \$100,000 in cash for the plant. It is said that no further action, civil or criminal, will be taken.

## ENDS HIS LIFE.

Portland, Ore., July 21.—Andrew Papagena Poulos, a Greek, who arrived from San Francisco yesterday, committed suicide shortly after his arrival by shooting himself in the head with a revolver. A large tin box, which had been opened with a can opener, was found in the room. It was filled with iron washers and San Francisco newspapers. From this fact the police surmise that he was the victim of lunacy men, who fooled him by substituting a box of worthless iron washers and newspapers for what he thought was money and currency, and who perhaps cautioned him not to open the box until he reached Portland.

## ELECTRIC FANS

In sizes of 8, 12 and 16 inches and larger if desired

## DESK FANS

## BRACKET FANS

## OSCILLATING FANS

## Hinton Electric Co.

GOVERNMENT STREET  
Phone 2242

## "Take Me With You On Your Summer Trip"

That's what these Two-Piece Suits are saying. They want to go because they can make your holiday so enjoyable.

Coats are mostly quarter-lined—real easy, "slip-on" coats—with superb shoulders.

Trousers have side straps, so you needn't wear a belt, if you prefer.

The fabrics are the "cream" of the season's patterns, in rich English Worsteds, Flannels, Serges and Homespuns.

\$15 starts the prices, which run to \$35.

## SPECIAL

FLANNEL AND SERGE OUTING TROUSERS, regular \$5.50 and \$6.50 values, at \$4.75

## ALLEN &amp; CO.

## Fit-Reform

ADVERTISE IN THE VICTORIA DAILY TIMES

THIS is the "IDEAL" Accident-proof Crib, designed for baby's comfort and safety and mother's convenience and freedom from worry.

Ends and sides are extra high to prevent the baby climbing out, and the spindles are close together so that baby cannot get its head between them. The side lowers to make the crib as snug as mother's bed when desired. "IDEAL" Crib is made in a number of attractive patterns and various sizes, all strong, durable and without dangerous sharp corners or rough edges. The "IDEAL" guarantee label identifies the genuine. Sold by most stores.
